OUR MESSAGE TO THE PUBLIC

In making a survey of our business for the year past, we find many new customers. This leads us to believe that pride of product and good will are inseparable units of success as everyone knows that industry can prosper through co-operation. These are reasons why Dr. MacDonald's Atlas Compound and MacDonald's Farmers Astrological Almanac have become so popular and in such great demand with the people.

Dr. MacDonald's Atlas Compound has stood the test of time as an established package medicine. Its popularity and use has increased yearly with increased knowledge on the part of the public of its efficiency. It is pure and accurate in composition, free from misrepresentation, and in entire harmony with the highest standard of commercial morality and ethics.

As a corrective and restorative in various physical ailments, Atlas Compound certainly has accomplished wonderful results in thousands of cases as testified by voluntary letters from our customers and which has in some instances, astonished even ourselves.

MacDonald's Farmers Astrological Almanac recognized as standard in all parts of the civilized world has become a necessity in the home by reason of the diversified guides for all members of the family on daily affairs and agricultural helps for better success in planting and harvesting. That this Almanac sells on its merits is fully attested by the many thousands of regular customers who are largely increasing each year.

We earnestly desire to thank our friends and customers for their patronage and trust the information contained in this yearly edition of our Almanac may be found helpful and of benefit to all.

Most Cordially Yours,
Dr. MacDonald's Atlas Compound
and

THE EARTH IS FLAT AND EAT AND GROW THIN

We have about one hundred copies of the 1925 Almanac containing that wonderful article on "The Earth Is Flat" published by Dr. J. MacDonald in his 1906 Almanac and republished by special request in our 1925 Almanac, another good article "Eat & Grow Thin" with a food list giving the number of calories in the food we eat. This article has made a big hit especially with the ladies.

This edition also contained many other special articles not found in any other Almanac. If you did not get a copy be sure and send 20 cents and we will mail you one. We also have a few copies of 1922, our "25th Anniversary Edition", 1923 and 1924, price 20 cents a copy or 4 copies, one of each year for 50 cents.

When ordering Dr. MacDonald's Atlas Compound, MacDonald's Farmers Almanac, Books or anything else listed in any of our advertising matter, all letters should be plainly addressed and Money Orders made payable as follows:

General Predictions for 1926

PREFACE

We find in the planetary influences as taught by Astrology the great fundamental principles underlying periods of progress, as Astrology makes the Earth the centre when dealing with humanity in manifestations.

In life as we find it, unequal conditions are dominating. Much time and investigation has been given to conditions in which man has been placed. The great object in life is to equalize our lives in harmony with the law under which we are existing and to become better acquainted with ourselves.

The future of this country is to take its shape, not from the struggles of parties or political leaders for power or station, but from the great principles which are silently unfolding themselves in the minds of mankind.

A higher and more rational conception of right and freedom is spreading itself among the populace, and is changing the face of society. The worth of a human being is better understood, His worth as an individual, on his own account, and not as a useful tool for other's progress, is found to attach a sacredness and dignity to every man.

Equality before the law has become the watchword of all civilized countries. Principles of a higher order are beginning to operate, and the dawn of these everlasting and beneficial thoughts is a sure omen of better days for all.

PREDICTIONS

The Sun is the planetary ruler for this year. This planet represents vitality, dignity, authority and venturesomeness. People who have the Sun well aspected in their horoscope are courageous and ambitious. This planet influences the disposition to be noble, generous, free, openhearted and very straightforward.

The Sun ushers in season after season and its progression marks the changing time of day and year. It measures the periods of prosperity and adversity and when events will culminate.

The luminaries are forming a good aspect. The outlook on life is joyful and optimistic. An era of prosperity with changes in methods, more favorable conditions, broader views with greater consideration between capital and labor for the welfare of both, with business activity and increasing production, downward tendencies in prices of many staples, are indicated as read in the sky map for the year.

Experience as a valuable guide, will greatly help in bringing a period of industrial and commercial activity, including general prosperity, with greater achievement along constructive lines and by a longer duration than of the past where uncertainties and fluctuations have caused hesitation and affected various interests.

The Sun favorably aspected in the first house of the mundane map denotes business increase, prosperous conditions, many benefits to the people, much activity, improvements in affairs of industry with success attending manufacturing lines, increased social and business friendships.

Uranus trine to Saturn in the second house gives ambition, strengthens the intuition and promotes those in mechanical and electrical affairs; denotes greater progress and new inventions, and that very important matters will be seriously considered by large corporations engaged in these lines of business with rather unexpected developments and improvements. Wonderful changes are going to come.

Mercury in the third house of the sky map, denotes increased facilities for traveling, favors postal affairs, newspapers, and publishing concerns, busses, motors and telephone service, although the latter part of the year, or very early in 1927, may bring some local pauses in labor activity, lower prices and great changes in Motor Cars and machine made utilities.

Venus in the fourth domain denotes unseasonable and changeable weather conditions during the early spring period of April and May, late frosts, warm days, cool nights, but not disagreeable. The summer season will be very warm and generally dry with frequent storms occurring at the close. The winter will be mostly dry and fair, with considerable snow on the ground and good sleighing, a favorable winter season for cutting wood and timber, logging and hauling.

Mars in the eighth house, adverse with Saturn denotes sudden and unexpected deaths and accidents of prominent people (both men and women), fires and many accidents. Automobileists should watch their speed limits this year, the people should exercise reasonable care in exposing themselves to danger on highways and parents should caution their children with due regard to safety.

Jupiter in the eleventh house favorably aspected is especially favorable in government affairs, denotes they will proceed more smoothly and shows that business matters connected with trade, finance and commerce will be handled efficiently, improve and increase.

Neptune in the twelfth mansion denotes that much research work of a scientific nature will take place and with explorations and further investigations pertaining to things occult, secret and of a mystical nature.

The year favors wealth and progress by means of agriculture, mining and building; things that pertain to the earth. A marked improvement denoting a higher moral tone will take place in theatres and other public places of amusement. Manufacturers of food stuffs, candy and public eating places will reach a high sanitary standard.

AGRICULTURAL INDICATIONS

A good year for grain crops of all kinds. Apples, pears, peaches, grapes, plums, cherries, quinces and nuts of all kinds will be plentiful. Vegetables in some sections will be short.

INFLUENCE OF THE SUN ON HEALTH

People this year will be afflicted with pimples in the face, palpitation of the heart and trembling, diseases of the brain and heart; infirmities of the eyes, cramps, sudden swoonings, diseases of the mouth, stomach and impure breath, catarrhs, putrid fevers.

The Free Astrological judgement offered to the readers of this almanac is to be found in the Daily Guide.

Through astrological science, we know that the Heavenly Bodies create both favorable and unfavorable times for the promotion of business, personal and social activities of every individual, also that there is a right and wrong time for all vital decisions and actions that make for distress or happiness in human experience.

IN INTERESTS OF FARMING

Live stock raising in connection with diversified farming is essential to the soil fertility as it increases the maximum yield of the food and grain products.

We believe in encouraging the development of a modern system of agriculture and systematic effort to improve the conditions of trade in farm products so as to benefit both consumers and producers.

GENERAL BUSINESS GUIDE ACCORDING TO ASTROLOGY

When Moon is in Gemini, study, write letters, interview neighbors and relatives.

When Moon is in Libra, consult religious people and their farternaties.

When Moon is in Aquarius, consult friends and those you desire as friends.

When Moon is in Aries, consult and make requests of politicians, surgeons and military authorities; also make requests of persons in authority.

When Moon is in Cancer, make requests of and deal with common people.

When Moon is in Sagittarius, consult lawyers; also good trading days, gives fair dealing.

For journeys when there is a serious or important matter, start away when Moon is increasing and in the signs Aries, Cancer, Libra or Capricorn, as this time favors safety and favorable results.

The first 12 hours after the New Moon occurs are not good for beginning any undertaking, but from 12 hours after to 72 hours are considered very good.

The First Quarter of the Moon (increasing) as given in this Almanac for any month, is excellent for most things, especially of a public nature, or for dealing with others.

For buying Clothing, do not select, make or put on while Moon is in Scorpio, as during this time it is very apt to tear quickly, get dirty or easily spotted or more quickly worn out.

For buying do so when Moon is in Cancer, Leo, Virgo, Libra, Scorpio or Sagittarius, especially if you wish to buy to sell at a profit. From Full Moon to last quarter is the most favorable period for the buyer. The seller is most fortunate in all dealings from 12 hours after the First Quarter to 12 hours before Full Moon.

Seek employment when Moon is increasing and in the signs Taurus, Gemini or Virgo.

Move, change houses or lodging for comfort and success while Moon is increasing and in either of the signs Taurus or Leo.

Private matters you wish to have the public know about, discussed by them or advertised, should be planned to excite attention during the eight hours before or after the Full Moon occurs in any month.

The correct position of the Moon for any day in the year is to be found in this Almanac on page headed "Positions of the Moon".

MOON INFLUENCE ON SURGICAL OPERATIONS

Ancient Astrologers always considered it unsafe to operate on the part of the body governed by the sign ruling it when the Moon is passing through that sign.

Operations on the head, eyes, and the extracting of teeth should not be undertaken while the Moon is passing through that sign.

Operations on the throat, bleeding, cutting or removing tonsils, goiters, should not be performed while the Moon is in and passing through the sign Taurus which governs this region.

Operations on the limbs and amputations should not be undertaken while the Moon is in or passing through the signs Gemini or Sagittarius.

The stomach should not be operated on when the Moon is in and passing through the sign Cancer.

No operation should be performed on the heart or spine when the Moon is in the sign Leo.

Operations on the abdomen should not be performed when the Moon is in or passing through the sign Virgo.

Operations on the kidneys should not be performed when the Moon is in or passing through the sign Libra.

Piles, Appendicitis and all operations affecting the urinary, excretory and generative system should not be performed when the Moon is in and passing through the sign Scorpio.

The hips and thighs should not be operated on while the Moon is in or passing through the sign Sagittarius.

The knees should not be operated on when the Moon is in and passing through the sign Capricorn.

Varicose veins and ulcers, the eyes and ankles should not be operated on when the Moon is in and passing through the sign Aquarius.

Operations of the feet should not be performed when the Moon is in and passing through the sign Pisces.

Never have anything done with the eyes when the Moon is in the signs of the earthly trirlicity - Taurus, Virgo, Capricorn.

Brain workers will always find their activities easier when working in a room with blue hangings, or at night with a blue light as this color has an especially soothing influence. It is also a good color for weak eyes.

TEMPER AND WORRY

If we keep our temper well under control so that no matter what happens, we can maintain our equilibrium and stand firm when trouble arises by looking on the bright side of the matter, and see what can be done to remedy and overcome conditions.

As a matter of fact most of the things we worry about never come to pass. Worry will not help matters, more often it hinders as it distracts from clear thinking along straight lines. By the exercise of sufficient will power at all times, we will in a very great measure be able to control various circumstances in life and shape matters to better advantage as conditions confront us, thus avoiding trouble and unpleasantness and our lives guided more safely amid the rocks and shoals of existence.

THOUGHTS FOR BUSINESS SUCCESS

A business attitude that will assure a balanced personality is something worth keeping in mind.

As a man proceeds in his business enterprise, he is apt to find it practicable to trust ordinary people to perhaps a higher degree than is implied in common law and business practice.

When a business man acts as if he expected honest dealings with those whom he entrusts his business and investments, that very act is recognized and tends to awaken in those he has in employ or dealings with, a disposition to fairness, honesty and efficiency.

Many people have lived and observed long enough to see that grasping methods in business, at length defeat the end sought and bring to the individual, some kind of sickness, sorrow or suffering.

There is a deep and lasting pleasure in the practice of altruism as a side line to every successful individual's business.

ASTROLOGICAL INFLUENCES EXPLAINED

The Twelve Zodiacal signs represent the body as a whole, explain the inner meaning of life, our complex nature and planetary influence upon human life.

The year, month and day, represent three circles and are divided into four equal parts. In the circle of the year are four seasons. In the circle of month are four quarters of the Moon and in the circle of the day there are four divisions, marked by sunrise, noon, sunset and midnight.

The planets Sun, Venus and Mercury represent Will, Love and Wisdom. We know that skill, wit and wisdom are cumulative and that anger and passion are wasted energy, for all that raises the personality at the expense of the individuality and is loss to the higher and better self.

Our vitality is governed by the Sun, and the Moon is the vehicle through which it is circulated; during the daytime we are active and at work, at night we relax and sleep.

YOUR FUTURE IS WITHIN YOU

Hundreds of letters reach us from people with good intentions requesting advice on how to better themselves in their various vocations. To all of such, we trust the following may give them a new line of thought and a broader view of their environment.

Will power or the exercise of it with energy directed in the right channels (line of work or business you like and best fitted for) will make you a man or woman of parts and more successful in your work or avocation in life.

It is the silent and irresistible power (mental discipline) men possess which has taken them over innumerable difficulties and made their lives a success.

Your success, your failure, your influence and personality, you carry about with you, for your dominant trends of thought are the determining factors in your destiny.

To be prosperous, means to be worth while to yourself and to others. Concentrate your whole mind upon your work and throw into it all the energy of which you are capable, as the faultless completion of small tasks leads inevitably to larger tasks and greater opportunities.

Planting Days For 1926

Best dates for planting when Moon is in fruitful signs. These dates are good only for this year - 1926.

Figures in light type indicate best days for planting all things which grow and mature above ground. Figures in heavy or black face type may be used for planting things which mature in the ground like potatoes & etc. but the dates given in light face type in the different months are also good for planting things which mature in the ground, and according to the increasing and decreasing of the moon. After New Moon it is increasing. After Full Moon it is decreasing. Do not plant on the day Moon changes quarters.

	Full Moon	New Moon
Feb. 5-6-9-10-13-14-17-18-19-22-23	Feb. 28.	Feb. 12
March 4-5-9-10-13-14-17-18-21-22-23-31	March 29.	March 14
April 1-2-5-6-9-10-13-14-18-19-27-28-29	April 28	April 12
May 2-3-6-7-10-11-12-15-16-25-26-29-30	May 27	May 12
June 2-3-4-7-8-11-12-13-21-22-26-27-30	June 25	June 10
July 1-4-5-9-10-19-20-23-24-27-28-31	July 25	July 10
Aug. 1-5-6-15-16-19-20-21-24-25-28-29	Aug. 23	Aug. 9
Sept. 1-2-3-11-12-13-16-17-20-21-24-25-28-29-30	Sept. 21	Sept. 7

For planting Flowers the best dates are March 29-30, April 25-26, May 22-23-24. On these dates Moon is in Libra, the sign which favors Flowers.

For destroying weeds, noxious growths and deadening trees, best dates are Aug. 7-8, Moon is then old and in Leo.

The planting dates in the earlier months are given for southern climates and hot house planting. The dates in the late months are given for buckwheat, timothy seeding and winter grains.

Crops which produce their yield and mature above ground should be planted during the increase of Moon - New and First Quarter and while in the fruitful signs. Crops which produce their yield in the ground should be planted when Moon is Full and in the earth signs Taurus and Capricorn, but the signs Cancer, Scorpio and Pisces are also good.

Page headed "Positions of the Moon", show the different signs the Moon is in on any day of the month and should be referred to for all planting: Each Calender page gives the dates when Moon is New, and in First Quarter [Increasing], Full and Last Quarter, [decreasing].

IN ALL PLANTING

It is the Moon's influence in ecliptic, the Zodiac, that affects vegetation and it is the zodiacal influence and position of the Moon which is taken into account by Astrology.

This Almanac gives the proper place of the Moon for all planting and other purposes.

If Cucumber and Musk-Melon plants are transplanted toward evening or after the Sun has set, they will grow more stocky, vines will not run so long and will blossom sooner. The ground should first be prepared with old manure and water used when plants are set.

If holes made by a round stick about a foot long driven into ground on all four sides of each hill and these holes filled every other day with fertilizer water made from two pailfuls each of hen and old cow or horse manure to a barrel of water, it will increase the growth of the plants and maturity of the fruit.

The vines may go down the next day after transplanting, but most of them will revive. The transplanting should be done when Moon is increasing and in the fruitful signs.

For Weaning Babies In 1926 The Best Dates are

January 11 to 18	May 1 to 7 and 27 to 31	Sept. 14 to 21
Feb. 7 to 14	June 1 to 4 and 23 to 30	Oct. 11 to 18
March 6 to 14	July 1st and 21 to 28	Nov. 7 to 15
April 3 to 10 and the 30th	Aug. 17 to 25	Dec. 4 to 12

As a number of our patrons write us regarding the apparent discrepancy between the above positions of the moon and those given in other Almanacs, we will explain the matter as follows: For all PLANTING and ASTROLOGICAL purposes the Moon's true place is in the SIGNS OF THE ZODIAC. Other Almanacs give the Moon's place in the constellations, which is not right for Planting or other Astrological operations.

The Proper Time To Plant And Harvest

The proper time for planting is when nature has the earth ready and man has prepared the soil for crops as indicated by the signs of the heavens and when this Almanac shows the Moon to be in the right phase and Zodiacal sign.

The planting signs and the days the Moon is in them, as well as the signs for cultivating and destroying noxious growths are given on the page headed "Positions of the Moon." while the name of each sign and its symbol is given on the first page in this Almanac.

The twelve zodiacal signs in practical use for agricultural purposes with a dependable guide are

Cancer	♋	Feminine watery signs
Scorpio	♏	Most fruitful of all
Pisces	♐	Best for all planting
Taurus	♉	Semi fruitful
Capricorn	♏	Earth and air signs
Libra	♎	Fair for planting
Sagittarius	♐	Tend to barrenness
Aquarius	♒	Good for cultivating
Aries	♈	Fair for destroying weeds etc.
Gemini	♊	Represents barren triplicity
Leo	♌	Leo most barren of all
Virgo	♍	Best for destroying weeds etc.

Cancer the mother sign representing country and home, is the most productive of all the signs. Scorpio ranks next, with Pisces third. These are the feminine, fruitful, watery signs.

Taurus, Capricorn and Libra are in the second group. They are semi fruitful and are fair for planting, but Taurus is very good for potatoes and root crops; Capricorn fair. Libra produces vigorous pulp growth and roots and a reasonable amount of grain. Libra is good for flowers.

Sagittarius, Aquarius and Aries the third group are masculine, fiery and air signs and tend to barrenness. Sagittarius is used for onions and seeding of hay. Aries also for onions. Aquarius for cultivating,

Gemini, Leo and Virgo, all considered non-productive and barren, are the best signs for grubbing and destroying noxious growths, especially between the 1st and 20th of August, September, February or June and in old or fourth quarter of Moon. Gemini is used for string beans and cucumbers.

Always do your harvesting near "Full Moon and when it is in the Airy signs Gemini, Libra or Aquarius. The fiery signs Aries, Leo and Sagittarius are next best. Harvest all root crops when Moon is Full and growing old.

Gather seed at Full Moon and when it is in signs Cancer, Taurus, Libra, Scorpio, Pisces or Capricorn.

Celery does fine when planted while increasing Moon is in Libra as it makes quick growth. Flowers also do excellent when planted in this sign.

Use new and increasing Moon for planting and Full and old Moon for harvesting and cultivating.

The Harvest Moon and Weather Indications

The term "Harvest Moon" as understood by the average person in agricultural affairs, is that period when Moon is near to "Full" and full during the harvest months of July and August and is associated with the harvesting of Hay and Cereals, Oats, Rye and Wheat, while the late harvest of Corn and Buckwheat occurs during or near the full Moon period of Sept. or may be as late as Oct.

When the New Moon is first seen, if lying flat on its back, it foretells a drought, or dry harvest, if partially inclined so that a pail of water might be hung on the lower horn and not spill, fine weather is denoted; if it appears to stand nearly upright, so that it would not hold water, then it denotes rain and is called a wet moon and indicates a wet harvest. A child born within twenty-four hours after the New Moon occurs, will be fortunate and live to a good old age.

If near the time of Full Moon there be a general mist before sunrise, the weather will be fine for some days. If the Moon rise clear, fine weather may be expected for at least a short time. If the Moon rise pale, wet weather may be expected. If the Moon rise red, expect wind.

If there be a halo or ring around the Moon in fine weather it denotes a storm approaching, the larger the circle, the nearer is rain. If two or three rings appear around the Moon, which are spotted and spread out, a storm of long continuance may be expected soon after.

If continued fine weather change to wet at time of Full or New Moon and remain so until the second day after, this wet weather will probably last until the next quarter of the Moon, and not change then, or only slightly, until the next New or Full Moon occurs; if it does not change then, continued rainy or showery weather may be expected during the next four or five weeks.

If continued stormy or wet weather change to clear and dry at the time of New or Full Moon, or a short time before or after, and remain so until the second day of the New or Full Moon, it will likely remain fine until the next quarter; if it does not change then, or for only a very short time, it usually lasts until the next New or Full Moon; if it does not change then or only for a short time, fine and dry weather may be expected for several weeks.

If fruits and vegetables of all kinds are gathered just before the Full Moon period for shipping purposes, they will hold up better, appear more fresh and plump on delivery, and will measure about the same as when shipped.

Potatoes should always be dug for keeping purposes and late shipment, in the Full or old of the Moon.

WHAT THE HOROSCOPE REVEALS IN MARRIAGE

The following will explain one of the prominent indications for marriage in the individual horoscope of both sexes.

In a man's horoscope an early marriage is indicated when he is born in the light of the Moon, at the time when it is progressing from New to Full, provided it is placed in the Fourth, Fifth, Sixth, Seventh, Eleventh or Twelfth House in his Chart. A late marriage is shown when he is born in the dark of the Moon, or when it is going from Full to New and placed in the First, Second, Third, Eighth or Ninth Houses of his individual Chart.

In a woman's horoscope an early marriage is indicated when she is born in the light of the Moon and when the planet Sun is placed in Fourth, Fifth, Sixth, Tenth, Eleventh or Twelfth Houses in her Chart. A late marriage is shown when she is born in the dark of the Moon and when the Sun is placed in the First, Second, Third, Seventh, Eighth or Ninth Houses in her individual horoscope.

The Masculine Sun is the particular significator of the marriage partner in a woman's horoscope and the feminine Moon signifies the Spouse in a man's horoscope.

The planets Sun, Moon, Mars and Venus and the ascending or rising sign, governing the physical body are the significators taken together with the sign of the Seventh House in the Chart and the planet therein, show the innate agreement or discord between people so far as matrimonial relationship is concerned.

When Saturn is in Scorpio, or if the Moon is there parallel, conjunction, square or opposition to Saturn in one's individual horoscope and when the Moon is in the last degrees of a sign and if at the same time it makes no aspect to the other planets, such males generally remain bachelors.

When the Sun is in the same position and when by progression makes no aspect to the other planets, such females generally remain spinsters.

When the Moon is in Cancer, Scorpio or Pisces, Gemini or Sagittarius, in good aspect to Jupiter or Venus, a large family is indicated. But when the Moon is in Aries, Leo or Capricorn, and when afflicted by one of the malifics or by the Sun, or when Mars, Saturn, Sun or Uranus are in the Fifth or Eleventh Houses and if none of the signs are on the Cusps of either of these houses, the marriage is usually without issue.

That the position of the heavenly bodies has an effect on children born in different places and latitudes is abundantly manifest from the resemblance of children born nearly together whereas the offspring of the same parents born at a distant place, or under different environment, or serious parental troubles and under a different constitution of the heavens, are essentially and sometimes wholly unlike both in mind, body and appearance.

An Astrological day begins at midnight and is counted from the first to the twenty-fourth hour. An Astronomical day is now reckoned in the same way, before 1925 it began at noon. A Planetary Hour day begins at sunrise and continues throughout the 24 hours, or until the following sunrise.

WE DO NOT WRITE PERSONAL HOROSCOPES

Again we feel compelled to make this announcement because people write us to cast their horoscopes. It takes valuable time to correctly do this for any individual and we now trust our customers and others will not write or send money for this particular purpose as it only causes us to spend time writing letters of refusal and giving us the inconvenience of returning money sent only for such request. Please do NOT ask us to write your horoscope as it will avail nothing. We use Astrology only to benefit the public in general.

WARNING

Letters have reached us at various times from people living in Texas, Arkansas, Missouri and other western and southern states, informing us that some man has called on them representing himself to be Dr. Mac Donald and from our office and getting money from people by misrepresentation.

We hereby warn the public that this man is a fraud and an impostor. Any man who represents himself as Dr. MacDonald of Binghamton, N. Y. from the Atlas Printing Co. or Dr. MacDonald's Atlas Compound and tries to obtain money by means of representation that he can perform miracles, ward off evils, perform or send them cures, should be reported to your local police and to us. Do not give any such man money.

We have many honorable agents selling Atlas Compound and MacDonald's Farmers' Almanac. These are entitled to favorable consideration by the public.

GENERAL INFORMATION

Sunday is a very favorable day for doing something different from what one has done on the days of the week previously. It is considered an excellent day to visit friends, acquaintances, listen to sermons or lectures, to rest, observe and think over suggestions. Never work on Sunday if it can be avoided.

Monday generally is not considered a favorable day. Best to postpone important matters, contemplated changes, moves or risks. Avoid disagreements, keep self control and defer asking favors. Attend strictly to work and business.

Tuesday is considered a good day to push all matters of a business nature, to employ help and to do the work on hand. Make the most of opportunities, but be careful about accepting promises as they may not be kept.

Wednesday is uncertain, it brings delays, bad news, annoyances and disappointments. Good for short journeys but not for long ones. Give attention to work and business and make it a point to accomplish something.

Thursday is a good day for all financial matters and speculations, asking favors, collecting accounts, interviewing those in authority, pushing business matters and traveling, 10 to 12 a.m. are the best hours. Females should be careful on this day in love and domestic matters, as unpleasantness or trouble may occur.

Friday is not considered good for business or marriage, but is good for asking favors, making changes, going on long journeys and for success in love affairs. It is a fortunate day for those in employ and favorable for borrowing things, but any change should not be done in haste. This day favors doctors, lawyers, astrologers and professional people. Elderly people had best be avoided in important matters, or where favors are desired.

Saturday is generally considered a good day, especially for those in employ as favors will be extended to them. Do not plan or begin any important matter or new work; best for old unfinished work. Avoid law suits and misunderstandings.

June is considered the best month of the year for any new operations. February the worst. The best days of each month is when the Moon is in the constellation of Libra. The worst days, when Moon is in Sagittarius. (Constellations are 30 degrees or 2 1-2 days previous to Signs.

Monday is uncertain. Thursdays are considered the best day of the week for everything. 10 to 12 are the best hours of any day.

Easter Sunday is always the first Sunday after the Full Moon which happens upon or next after March 21st. If the Full Moon occurs on Sunday, Easter is the following Sunday. Easter may come as early as March 22nd, or as late as April 25th.

Eggs should be set so that the chicks will hatch out when Moon is on the increase and in a fruitful sign. Cancer is best. It takes 21 days for hens eggs to hatch, 28 days for ducks.

Dig root crops for seed in third quarter of Moon. They keep longer, are dryer and better. Crabs, Mushrooms are best and most plentiful at Full Moon. Make Sauerkraut when Moon is in Pisces. Butcher when Moon is increasing, New and First quarter, the meat will not shrink up in cooking.

Pick Apples and Pears in old of Moon. Bruised spots will dry up. If picked in new of Moon fruit will not keep as long. Harvest all root crops when Moon is growing old. They keep longer and better.

Roof houses and barns during old of Moon; the shingles will not warp or turn up. Set fence posts at old of Moon and they will not "Heave" out.

FORTUNATE AND UNFORTUNATE PERIODS

Aries born people are most fortunate in the months of June and July. Thursday generally is their most lucky day; Monday uncertain and unlucky.

Taurus born people are usually most successful in the months of November and December. Their lucky day of any week is Monday, Sunday unlucky.

Gemini people are usually most fortunate in the months of April and August. Friday is lucky, Sunday unlucky.

Cancer born people, succeed best generally in the months of February and September. Their lucky day is Wednesday, unlucky day is Saturday.

Leo born people are most lucky in the months of January and October. Their lucky day is Sunday, unlucky day Tuesday.

Virgo born persons are most lucky and successful in the months of February and November. Monday is their lucky day, Wednesday unlucky.

Libra born people are always fortunate in August and December. Their lucky day is Monday, unlucky day Thursday.

Scorpio born people are usually most fortunate in the months of January and July. Their lucky day is Tuesday, unlucky day Monday.

Sagittarius born persons are usually most successful in the months of February and June. Sundays are lucky, Fridays unlucky.

Capricorn born persons are most fortunate in the months of March and November. Wednesdays lucky, Saturdays unlucky.

Aquarius born persons have their fortunate periods in the months of April and August. Thursdays are lucky, Wednesdays unlucky.

Pisces born people are usually most fortunate in May and November. The lucky day is Wednesday, unlucky day Friday.

THE DAY OF THE WEEK ON WHICH YOU WERE BORN

Sunday ruled by the Sun. People born on this day are generally fortunate in their efforts or avocations in life; usually obtain considerable wealth, live to good old age and are inclined to take much pleasure through life in various ways.

Monday ruled by the Moon. People born on this day are lovers of honest employments, generally successful in business, have a generous disposition and genial nature, subject to being imposed upon.

Tuesday ruled by Mars. People born on this day are energetic, quick in action and quite passionate, liable to trouble through haste and misconducting themselves at some time of life, being in danger of accidents and violent deaths.

Wednesday ruled by Mercury. People born on this day are of a studious nature, quiet and orderly in disposition, intellectually inclined and generally reach high attainments in life. They are lovers of good literature.

Thursday ruled by Jupiter. People born on this day are very fortunate in financial matters and professional lines; usually active and become wealthy, have confidence and esteem of society in which they move.

Friday ruled by Venus. People born on this day are fortunate in business and favored by the opposite sex, happy in their love and domestic relations, like amusement and have but little sickness.

Saturday ruled by Saturn. People born on this day are destined to sorrow, trouble and disappointment, but may, through self control and by taking advantage of their opportunities become highly respected and prosperous.

While the positions of the Planets at the time of birth governs the fortunes of each human being, yet, the destiny of each and all is in his or her own hands, as each can by an exercise of sufficient will power rule their stars.

ZODICAL TENDENCIES CAPRICORN PEOPLE

Born from Dec. 23 to Jan 19, any year

General characteristics. Capricorn is an earthy, movable, serving, feminine, negative sign. Expression, intellect, ambition, ideality. Rules knees and affairs of a public nature.

The man born in this sign is physically strong, talkative, industrious, persevering, generally practical and economical, somewhat particular, never easily discouraged, although often disappointed, careful, cautious, makes the most of his opportunities, and usually triumphs over circumstances, succeeds in farming, building and real estate, excels in story-telling. He is proud, passionate, suspicious, independent, fond of good living, affectionate to his own, selfish regarding them, severe on those who meddle in his affairs, subject to sudden spells of anger; not above manual work when necessary; has capacity for organization, quick to grasp an opportunity and with ability to plan and execute. Usually careful in all money and business affairs, and a promise is sacredly regarded. Leads rather an anxious life, not always successful, but will have more friends than enemies.

The woman born in this sign has a fine memory, makes a good teacher, is faithful and devoted in domestic relations, very sincere, not demonstrative, but has a hidden, intense and ardent nature. She will make a good wife and mother, but does not like to be interfered with in her household affairs, and never meddles with the affairs of others; usually more discreet than the man and knows how to make both ends meet; dislike flattery, but appreciates praise when she feels she has righteously earned it. She has fine taste in dress and in the arrangement of the home, and a good entertainer; subject to gloomy spells of depression and fits of despondency without apparent cause; nervous from overwork. When understood she is genial and really liked; is good-hearted and does for others more than is expected of her. She will have but little real trouble, not much sickness and but few children.

Both men and women will find congenial friends among people born in all of the signs, but for more intimate companions and partnerships look to those born in Virgo, Taurus or Libra, and those born about the same time of year as themselves.

The birthstone is the Turquoise, favorite gems White Onyx, Moonstone, and the colors maroon, garnet, brown, silver, black.

A GOOD DIGESTION

It is better to correct and strengthen the digestive power than to be obliged to diet, to eat this or that only, or to live on specially prepared so-called foods. If the system is not maintained at a normal condition of flesh and fat, and kept constantly freed from calcareous and earthly deposits, and from effete matter, by means of the proper digestion of an ample food supply, there must be emaciation, a present or an early decline, or an unhealthy flabby fatness; an inability to withstand exposure; liability to Kidney Diseases and Bladder affections; sensitive to change of seasons; proneness to Neuralgia; Pain in the Groin; liability to frequent Grip, Bronchial attacks, or Pneumonia, and a liability to any disease flesh is heir too. A single box of ATLAS COMPOUND may remedy these conditions.

ZODICAL TENDENCIES

AQUARIUS PEOPLE

Born from Jan. 20 to Feb. 18, any year

General characteristics. **Aquarius** is a fixed, masculine, positive, serving, airy sign. Expresses will, power, purpose, rules ankles, pleasure, happiness, mentality.

The man born in this sign has a pleasant, friendly, generous, patient, determined nature; strong likes and dislikes; often very radical and advanced in his ideas; easily influenced by kindness; generally well liked but should be careful regarding friendships and guard against the baleful influence of fascinating types of the opposite sex. He is rather slow to anger, will not be driven; loves liberty, and is fond of occult research, art, music, literature and scientific studies. He is capricious, egotistical, inclined to worry over small affairs; will travel some. His mental quickness makes him very apt in any trade or profession; is adapted to the minor business pursuits and his possibilities in life are good if he improves his opportunities, as he can succeed in almost any line of work he may decide to do.

The woman born in this sign is faithful and devoted in home life and to her friends, but when her confidence is abused she is apt to become treacherous and cruel. She is intuitive, fond of society and likes to dress well; has common-sense views, quick understanding and usually wins the respect and admiration of others; has great power over men for good. She is very industrious, honest, and could succeed in any vocation she might apply herself to; is careful in money matters, careless about promises; has many friends and thinks much of them, also her relations; generally marries well; is a credit to her husband and usually is happy and contented with her family.

Those born under this sign have magical ability to heal and to control insane people. Congenial and business companions will be found in Aries, Leo, Capricorn and Sagittarius born, but marriage partner is best with those born in Aquarius or Libra.

Gems. Amethyst, Sapphire, Opal, Carbuncle, and the colors blue, Nile green and salmon pink.

WHOM YOU SHOULD MARRY

ASTROLOGICALLY

It is said that one's birth-month affects one's temperament, and that people differ from one another according to the seasons of the year in which they are born. In choosing a marriage partner, every man and woman should be greatly influenced by the birth-month of those with whom they are contemplating a journey to the altar. Lovers having birthdays in uncongenial months, which is to say, periods governed by diverse planets, will mate disastrously, but if the dates of their births occur in months which "Attract" them, lifelong happiness will be theirs. January born should wed May born; February born should wed February born; March born should wed July born; April born should wed August born; May born should wed May born; June born should wed October born; July born should wed March born; August women should wed April men, and August men December women; September born should wed March born; November born should wed March, July or September born; December born should wed August, April or December born.

MARCH'S MISERIES.—There is no more disagreeable month in the year. It is a hard one on elderly people. Warm days and cold ones, bright Sunshine and terrible storms. The great struggle between Winter and Summer takes place this month and woe to the person who is taken sick at this time, for they seldom recover. The blood is thick and sluggish from feeding on concentrated foods. Fever, blood disorders, headaches, and general debility will so weaken the system that any contagion may be contracted.

ZODICAL TENDENCIES

PISCES PEOPLE

Born from Feb. 19 to Mar. 20, any year

General characteristics. Pisces is a mutable, dual, fruitful, feminine, negative, serving, watery sign. Expresses emotion, flexibility, restlessness, rules feet and females in marriage.

The man born in this sign is faithful, timid, sympathetic, loving, honest, industrious, neat, particular, loves order and completeness, fond of mystery, romance, music and beautiful scenery; fears ridicule, is restless, inquisitive, apprehensive, self-contradictory, critical, positive in opinion and generally puts too much confidence in the words and promises of friends, when opposed becomes obstinate and disagreeable; generally successful in any mechanical trade or profession which requires fine finish and attention to detail; likes roaming but not new ventures; finds it difficult to change habits, customs and beliefs, but likes change of scene and travel; worries over trifles; is faithful and inclined to be exacting in domestic affairs; likes to make those dependent upon him happy and comfortable; would be more successful in partnership than in individual undertakings. Choice of occupation is wide and generally leads to moderate success in agriculture, labor, trade or profession.

The woman born in this sign is an excellent housekeeper and orderly, untiring in her efforts to accomplish something; inclined to the habit of self-censure and lacks self-reliance; allows her imagination to go to extremes at times, judging wrongly, and serious trouble is the inevitable result through her heart-breaking anxiety and foolish emotions. She is kind-hearted and loving, sensitive and exacting; faithful in domestic life, likes all that is good and refined; does not show her affections openly, is apparently stubborn at times, but easily coaxed, too generous and sympathetic. She is destined to have a large family and to live to an advanced age; generally marries more than once, is fond of talking, change of scenery and recreation; remembers clearly anything seen in which she takes an interest.

Gems, Bloodstone, Chrysolite, Pink Shell, Moonstone. Colors, emerald, green, pink, white and black.

The most congenial companions are perhaps found in Capricorn and Virgo people. But for the woman of this birth sign, the Cancer born man would suit best, generally.

BEST TIME TO DO PRUNING

Pruning should be done in the spring when the vital currents are prolific, yet not at the stage when the ascensional life fluid is needed to promote the important action of fruitage.

If a tree or vine is pruned a few weeks before budding time the tendency of the volume of ascensional sap will favor the remaining limbs and buds to come. If the pruning is done at the time the buds begin and when the life sap is in them, it will prevent fullness of bloom and yield.

In the fall the best time to prune is soon after harvest or during the shedding process when the season is over, then the life fluid is returning to the roots.

The condition of all crops determine the time of harvest, as the season and progress must be taken into consideration. If planting can be done on the favorable days and the crops harvested on about the same days as the planting was done, both quality and flavor will be much the better.

HINTS TO FARMERS FOR APRIL

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Sow wheat, barley, rye, peas, beans and oats. Transplant cabbage, lettuce and sow all spring vegetables. Horses require full allowances of feed this month. Plant potatoes and shrubs, vines, etc.

APRIL'S AFFLICTIONS.—April is not so much of a month to contract disease as it is to convalesce. If you have escaped disease thus far into the year you should now begin to "clean up." Malaria, boils, bilious attacks, blood diseases, catarrh and skin eruptions begin to show; neuralgia and nervous troubles generally will add to the pangs of other disorders.

DAILY GUIDE—APRIL

This information is general for all persons born under any of the twelve zodiacal signs and applies to the daily affairs of this year only. Will power with a fixed purpose, or set of purposes in any individual's daily affairs may increase or modify the influence of the aspects whether for good or for evil. Many men and women as they advance in life take on fat and are liable to have apoplexy, paralysis or pneumonia. Apoplexy usually starts in the region of the liver and is caused by a wrong diet. There may be dizziness felt for weeks or even months, unsteadiness in standing or a swimming feeling in the head which may indicate approaching apoplexy.

As poisons and lack of nutrition are alone the cause of bodily sluggishness, congestion of the stomach and liver must be prevented. You must cleanse the liver and intestines of poisons.

Dr. Mac Donald's Atlas Compound is made to fit the average case and is the one remedy which should always be kept on hand and taken when there is any feeling of distress, as the liver will not work when the stomach is overloaded with foods too heavy to be easily acted upon or when it is immersed in poisons. What goes into the stomach will in time affect the body, as congestion in the stomach and lowered vitality cause various derangements and diseases.

ARIES PEOPLE

Born from March 21 to April 19, any year

General characteristics. Aries is a masculine, positive, cardinal, fiery, equinoctial sign. Expresses ideality, ambition, intellect, rules head, face, friends and relatives.

The man born in this sign has mental energy, more or less headstrong or impulsive ambitions, full of enterprise and new ideas, is persistent, determined, self-willed, dislikes a master; quick to resent abuse or imposition, but forgiving and will not hold a grudge for long; liable to go to extremes through indignation, hasty speech or lack of discretion. Is at his best when in an executive position. He is very generous, though quite set in his way, stubborn and harsh at times and inclined to be careless in his statements. Generally marries a good woman, but not an early marriage, has a long lease on life; is active in the direction of the public good, and faithful to friends, but does not easily forgive an enemy. Loses his finest opportunities through anger and by not carefully considering all things before engaging in an enterprise.

The woman born in this sign is high-strung, especially capable, but very impatient and irritable under restraint and does best when left to her own methods. She likes a wide range of activity, is shrewd and in business matters should trust to her own intuition. She is a splendid companion, likes music, dancing, home games and outdoor sports. She should be careful in confiding secrets, is easily deceived by those she loves, is respected and honored by the opposite sex and generally has several love affairs favorable to herself. She is apt to marry more than once and while she makes a good wife, she is naturally inclined to business and often engages in it. She has decided ideas, is very generous, but apt to consider her own interests first. She destroys her best talents by hasty judgment, quick temper and jealousy; will frequently find herself mistaken.

Gems, Diamond, Amethyst, and the colors pink, white. Best conjugal mates, Leo and Sagittarius persons, but you would also mate well with your own sign and find pleasant companions in those born in it.

TAURUS PEOPLE

Born from April 20 to May 20, any year

General characteristics. Taurus is a fixed, earthy, intellectual, feminine, negative sign. Expresses will, power, purpose, rules the neck, throat, also travel.

The man born in this sign is firm, self-reliant, persistent, determined, secretive, reserved and courageous; when angered, furious, headstrong and unyielding. He is slow, patient, plodding, has great physical vitality, sincere, reliable, a faithful friend, steadfast and loyal when put to the test and real necessity arises, but abusive, even to friends when excited or angry. Has keen intuition in all that pertains to practical business, makes few blunders; has good executive ability, also makes a good agriculturist. He is more fortunate in money matters than in love affairs; prefers strangers to relatives; likes to have his own way and is generous in so doing, inclined to interfere in other people's affairs which causes him to be much disliked. He generally lives to old age, has but few real friends and many enemies; likes pleasure and high living, often occupies high positions and becomes wealthy.

The woman born in this sign has a warm-hearted, generous, clinging nature; always ready to bear the burdens and sorrows of those she loves; is an excellent housekeeper, and does not dislike manual labor, but is more fond of a life of ease and pleasure than one which calls for great activity. She will succeed well in lines that pertain to women's affairs. When angered, she becomes furious and says just what she means, regardless of consequences. She should guard against being led away, or misled through sympathetic feeling or flattery. She is careful and economical, has good opportunities for marriage, sometimes makes a mistake, gets a penurious husband and the domestic life is then unhappy. Divorce and second marriage are the consequence and happy result.

Most congenial partner will be found in Virgo and Capricorn born and not infrequently in Libra.

Gems, Moss-Agate, Emerald, and the colors red and yellow.

REASONS WHY ATLAS COMPOUND IS SUCH A GREAT CORRECTIVE

Strong medicine taken just for immediate results may be violent in action and which causes so much distress and various forms of dyspepsia.

Heart burn and belching of gas are often the result of eating starchy foods and leave the stomach in a worse condition than before taken.

Tonic medicine, while slower in action, is better because it tends to bring about a more normal action and builds up the whole organism gradually, while it strengthens the entire nervous system. This, ATLAS COMPOUND does.

ZODICAL TENDENCIES

GEMINI PEOPLE

Born from May 21 to June 20, any year

General characteristics. Gemini is a mutable, dual, barren, human, masculine, positive, intellectual, airy sign. Expressions emotion, flexibility, restlessness. Rules arms, hands, shoulders, collar bone and lungs, friends and enemies.

The man born in this sign is kind-hearted, sympathetic, affectionate, fond of home and children, loves change and diversity; has an active mind and can be relied upon in an emergency. Always likes to be busy, has a doubtful nature, hard to understand, but versatile, dextrous and skillful with the hands and has considerable mechanical ability, generally a good writer and capable of filling important positions, inclined to be too generous and superficial. He is fond of the opposite sex, fickle in his affections, but loves only one woman at a time; likes education, travel, has many friends and some secret enemies through jealousy, is apt to pass judgment on others and without considering his own faults. Can easily adapt himself to any environment.

The woman born in this sign is a natural home-maker likes everything that is artistic and beautiful, is affectionate, and thoughtful for the comfort of others; likes to be doing several things at a time owing to her impatient nature; is too generous for her own good; seeks frequent changes when employed; makes a good teacher and can do almost anything in clerical and millinery lines. She is very active and inclined to worry, easily influenced, somewhat jealous, and suspicious, generally attractive. Has powerful imagination, and quick to grasp the thoughts and schemes of others. Honesty with her is a virtue; liable to go to extremes, but can adapt herself to most any condition in life. Ill health is usually brought on by too much activity, excitement and over-work mentally and hysteria is one of the dangers. She should keep free from anxiety, worry and nervousness and get plenty of sleep.

You will find helpful and devoted friends in Virgo and Aries born, but your conjugal mate, if your restless nature finds one, will be best in Libra, Aquarius, or your own sign.

Gems; Beryl, Aquamarine and the colors red, white and blue.

ZODICAL TENDENCIES

CANCER PEOPLE

Born from June 21 to July 21, any year

General characteristics. Cancer is a watery, cardinal, tropical, fruitful, feminine, negative, maternal, movable sign. Expresses intellect, ambition, ideality. Rules breast, stomach, health and life.

The man born in this sign is quiet, reserved, highly sensitive, versatile and changeable; has many ups and downs and changes of occupation; loves nature, adventure and strange experiences; is industrious, frugal, attached to home and family, influenced greatly by surroundings; is mediumistic and very conscientious, painstaking often to a fault, is fond of saving, too careful in detail and lacks faith in the future. He has much mechanical ability and executive force, slow to adopt new methods. He is lively, fond of women, show and dress, forgives an injury but does not forget it. He generally marries well, does not want or becomes very wealthy, lives to good age and loses friends through his own actions towards them. Succeeds best in pursuits in which the public is interested, or in occupations connected with the sea or liquids.

The woman born in this sign has a merry disposition, is fickle in love affairs, gay and talkative, but makes a devoted wife and mother, a good housekeeper, neat and orderly. She is generally active in church work, modest, conscientious about giving advice, possesses much dramatic and musical ability, with artistic talent, parsimonious in living expense; likes all kinds of amusements, fond of dress, display and jewels. She generally marries more than once, is destined to have a large family, is passionate and emotional, kind-hearted and can easily put up with inconveniences. Inherits money or property from relatives. Liable to suffer from weak stomach, gastric troubles, and worry concerning family and domestic affairs. She should be very careful in choosing her mate to save future unhappiness. Those born in Pisces or her own sign make the best conjugal marriage partners. The man will find his is Pisces, Virgo, or Libra born. These people need the marriage experience to bring out the higher qualities of love and equality.

These are the people who are economical, fond of saving, who are afraid and ashamed of poverty, who save and hoard, who are happy and comfortable during the day, but unhappy and depressed at night.

Gems, Emerald, Black Onyx. Colors green, russet.

THE STOMACH

The most important organ of the whole body, so far as it effects the health and the enjoyment of life are concerned, is the stomach. It, more than any other organ, must supply the new material from what we eat, to build up the tissue of our bodies as they wear out and are cast aside. It is most important then that the stomach and blood be kept in good condition. One of our wealthiest men, who is the victim of a bad stomach, recently offered a million of dollars for a sound stomach. Dyspeptics are of all men, most miserable, and yet it is true that a little aid given at the right time and in the right way, keeps the stomach healthy and able to do its work perfectly.

ATLAS COMPOUND will keep the Stomach in good condition.

HINTS TO FARMERS FOR AUGUST

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Sow turnips, hoe and cultivate corn and potatoes. Look well to the dairy and fodder. Pack eggs, feed the pigs plenty of green vegetables.

AUGUST AILMENTS. There is no time in the year when the effects of the weather is felt so much as in August. The blood gets overheated and ferments. Heart Disease, Fevers and Agues prevail, food spoils easily and causes bowel troubles. There is no reason why people should suffer so much more this month than any other.

ZODICAL TENDENCIES

LEO PEOPLE

Born from July 22 to Aug. 21, any year

General characteristics. Leo is a fixed, barren, masculine, positive, fiery sign. Expresses will power, purpose. Rules heart, blood, nerves, prosperity, losses and pleasure.

The man born in this sign is active in mind, good-natured, generous, ambitious, independent, determined, honest, outspoken and very conscientious; quickly angered but quickly appeased; has many friends, is a natural leader and good story-teller. He is haughty, mischievous, impetuous, domineering, generally well built and pleasing in appearance, acts from the heart rather than the head; inclined to jump to conclusions. He usually is successful in business ventures; often attains popularity when holding positions of authority, unselfish in money matters, but saving, seldom refuses favors, but expects to have his own way in matters of opinion. He has considerable mechanical skill, never spares himself when interested in his work; is better adapted to mental activity and positions of power and authority than to manual labor; has good judgment, generally a long life and becomes more fortunate as he grows older.

The woman born in this sign is apt to be quiet, most intensely loving and sympathetic to her husband and children, with good will for all, a model housekeeper and fine cook. She is genuinely hospitable, but the friend or relative who injudiciously trespasses on her domains or maternal rights is no longer a welcome visitor; is well thought of by her neighbors, but will fight for her children on the slightest provocation. She is generally very attractive, courageous and virtuous, has a well-pleasing manner in speech and action, but is sometimes misunderstood and not appreciated. When faith or love is lacking there will be no harmony in the home, and nervous irritability and indifference will result. This sometimes causes separation, divorce, or unfaithfulness on the part of lover or husband. She lives to a good old age, has but few children and not much sickness. She will find her best mate in Aries and Leo born man. The man mates well with the woman born in Aries or Sagittarius.

Gems are Ruby and Diamond, and the colors, red and green.

When people eat to the full, continually, of all kinds of viands they are apt to curtail their powers of enjoyment, weakening their nerves, and shortening the natural duration of their lives. Many people suffer from a disordered liver, simply because they stuff themselves with rich and greasy food, and thus bring on liver difficulties. Dr. MacDonald's Compound and our special AC-SO Tablets may be found of most useful service and an excellent corrective in such troubles.

To produce hard butter from the cream of cow's milk, each cow may be fed Coconut meal in small amounts and which greatly increases the tendency to hard butter; but not over three pounds should be fed daily per head to dairy cows, or the butter would be too hard and hard butter is about as undesirable as soft butter.

VIRGO PEOPLE

Born from Aug. 22 to Sept. 21, any year

General characteristics. Virgo is a barren, human, mutable, feminine, negative, maternal, earthly sign. Expresses emotion, flexibility, restlessness. Rules bowels, love, courtship and marriage.

The man born in this sign is a modest, thoughtful, serious and industrious person; very active, seldom contented for long; has good endurance and does not show his age; he is quick-tempered, not easily discouraged, usually acts with forethought; is not able to easily save money; practical, nervous, prudent, subtle, sometimes carping criticism of everybody and everything; able to carry on great enterprises where he has practical experience to copy from. He always carries through anything he undertakes, never submits to defeat; generally marries a good woman who is a credit to him; his home life becomes more pleasant and attractive as he grows older, has a long life and generally healthy, usually attains wealth.

The woman born in this sign is very industrious, a fine housekeeper and likes to have her home and personal belongings tasty and elegant, usually prefers to entertain her friends rather than to be entertained. She is very sensitive and when things go wrong, either gives vent to her ill-humor in bitter, sarcastic speeches or lapses into moody silence. She is usually good-humored, and her fault-finding is of critical, corrective kind, without a trace of ill feeling. If her personal freedom is not interfered with, she is very kind and obliging. She is excitable, timid, restless and needs responsibility of one kind or another to satisfy her restless, mental and bodily activity. The intellect is keen and the qualifications of a high order, virtuous, capable and efficient. In love affairs, she is fickle and capricious, has a strong maternal instinct and is a most devoted mother, will have but few children, has great vitality, seldom sick, retains her youthful appearance and lives to a good age, generally marries rich or comes into an inheritance.

Congenial friends and associates are found in Libra and Sagittarius, but the best mate is to be found in your own sign, analytical and critical like yourself.

Gems, Sapphire, Cornelian, Hyacinth, Colors, Amber, Gold, Black.

FAT OR THIN PEOPLE

An abnormally rapacious appetite indicates a morbid constitution of the digestive tract and needs correcting even more than lack of appetite. People are thin, or take on a bloated, distressing fatness and remain so, because of imperfect, feeble digestion, disturbed or incomplete assimilation; the digestive forces are slow, and not commensurate with the demands of, or the waste in the physical organization. **ATLAS COMPOUND** is the sheet anchor of health—the secret of a long life—itsself a digestive independent of the stomach's digestive forces, also an appetizer, a corrector of impaired digestion, constipation, torpid liver, and an invigorating tonic to weak, feeble stomach digestion; it thus secures the happy health medium of not too fat nor too lean, and lessens the liability to paralysis.

"Frank Thomas, South Paris, Me., writes April 14, "I have had 6 boxes of **ATLAS Compound** and find it to be the best tonic that I have ever taken. Some of our friends and neighbors say the same as I do."

Everbearing Raspberries may be produced plentifully by cutting the canes off in the fall close to the ground, from four to six inches high as they will bear earlier than the present year's new canes. In the spring if the new canes or shoots are topped off before hardening, so that they will branch, they will usually produce a good full crop of berries.

ATLAS COMPOUND is different, nothing equals it as a relief for nervous prostration, starved nerves, indigestion, dyspepsia, constipation, and other stomach disorders, palpitation of the heart, kidney and liver diseases, rheumatism, neuralgia, sick headache, general debility, chills and fever, malarial troubles, female irregularity, la grippe and weakness.

ZODICAL TENDENCIES LIBRA PEOPLE

Born from Sept. 23 to Oct. 22, any year

General characteristics. Libra is a cardinal, equinoctial, masculine, positive, generative, airy sign. Expresses intellect, ambition, ideality, balance. Rules loins, kidneys, wealth and prosperity. This sign gives marked mechanical ability over all the others.

The man born in this sign has respect for law, clever in judgment, shrewd, secretive, skeptical, but enterprising; restless, fond of luxuries and travel; acts on first impulse, is hopeful, sometimes very inconstant, mercenary and passionate, or just the opposite. His greatest fault is the tendency to be swayed by others, and to exaggerate from over-enthusiasm. He is either a natural-born speculator, merchant or professional man; usually very fortunate. When overtaken by disaster, he recovers quickly and goes to work again with redoubled vigor. Sometimes from his love of excitement, degenerates into a gambler. He usually is gifted with good foresight and economic caution, has many friends and is loved by his wife and family, though he causes them much worry and anxiety at times. He is considerate toward his enemies, is never discouraged, seldom angered, but when he is, leaves nothing unsaid; generous with advice, fond of music and harmony, would make a fine mechanic.

The woman born in this sign is quite different from the man, being retiring, gentle, anxious; kind, merciful and having strong intuition. She is most devoted to friends, family and relatives; is extremely sensitive to inharmonious surroundings and does not like to be dominated by those who demand reasons for everything, easily confused and confounded by the arguments of others and often seems more unreasonable and inconsistent than she really is; as long as she follows her own intuitions she will rarely be deceived. She is fond of amusements, social gaiety and very popular with the opposite sex. She has artistic tastes, makes an excellent teacher of music or mathematics and likes original and practical things. She dislikes hard, dirty, or routine work, generally marries while young and often more than once. Usually gets a good husband, lives to good age, and dies a wealthy widow.

The great danger of both men and women born in the Libra sign is excess activity, worry and impatience which causes nervous breakdowns and a peculiar intestinal indigestion. These people are fond of the occult and mysterious and often possess the quality of seership. The best partners are to be found in Aquarius, Virgo and your own sign.

Gems are Diamond, Opal and the colors crimson, black and light blue.

HINTS TO FARMERS FOR NOVEMBER

LATITUDE OF NEW JERSEY, PENNSYLVANIA, OHIO, MISSOURI, KANSAS AND CALIFORNIA.

Threshing is now in order. Earth up celery. Cut fuel. Gather leaves. Subscribe for farm papers, books, etc. Get everything in shape for Winter.

NOVEMBER'S DISEASES.—This is the month for Catarrh. People are careless, catch cold, neglect it and the result is Catarrh. This disease not only affects the head, nose and throat, but works its way down into the bronchial tubes, the lungs, stomach, kidneys and bladder, causing all manner of complications. Diseases contracted this month hang on all Winter, and in most of these cases when Spring awakens the patient is still sleeping "under the willows."

General characteristics. Scorpio is a fixed, fruitful, feminine, negative, reproductive, watery sign. Expresses will, power, purpose. Rules secrets, muscular system, males and marriage.

The man born in this sign is secretive, cunning, determined, critical, suspicious, the character is strong and decided, no half-way measures about him; likes luxuries, but economical and calculating, fond of travel, especially on water; often causes great distress among family and friends by his uncompromising and exacting traits. He has great skill with the hands; attends to his own business, but in matters of duty makes trouble for others. Is capable of much success through bold enterprise, persistent and stubborn in carrying out an undertaking. He is of a jealous nature which often causes him much trouble, is friendly for his own interests and is apt to meet with serious reverses. He has much mechanical ability and in politics and law is aggressive; possesses much energy in productive methods.

The woman born in this sign is attractive, intuitive, an excellent entertainer, but not always the most agreeable companion; difficult to understand, conceals her real feelings, is courteous and affable, a good housekeeper, but dislikes menial work. She is capable and efficient when she has clearly defined duties and wonderfully tenacious and persistent when she does take up any line of work and can adapt herself to almost anything. She rules through fear and her reprovals are of a cold, contemptuous manner, effectual but not lasting. She is proud, reserved, thoughtful, saving, fond of luxury, very passionate in love affairs, likes flattery, but should beware of it except from her husband; inclined to be hard-hearted and unfeeling, yet the nature is nervous and sympathetic, can be led but not driven. She makes a good mother, has several children and is industrious, generally respected, marries more than once, angers her husband at times, has more happiness in the latter years of life and generally dies well off.

These people have determined traits of character, either good or evil, which makes them very much liked or disliked, as the case may be.

The man will find his best mate perhaps in the woman born in Cancer or Pisces. The woman will mate well with the man born in Virgo, Libra, or her own sign.

Gems, Opal, Topaz, White stones, and colors scarlet, golden brown, black.

It seems to be a known fact that more people suffer from Indigestion than from any other disorder. Of the many digestive agents known, none has so wide a scope of activity as a corrective, as has ATLAS COMPOUND. These valuable Tablets start digestion soon after entering the stomach and continue its function throughout the entire intestinal tract.

ZODICAL TENDENCIES SAGITTARIUS PEOPLE

Born from Nov. 22 to Dec. 22, any year

General characteristics. Sagittarius is a dual, human, masculine, positive, reproductive, fiery sign. Expresses emotion, flexibility, restlessness. Rules hips, thighs and liver, hope and success in new enterprises. The seer and the prophet are born in this sign.

The man born in this sign is direct, outspoken, active, jovial, hopeful, generous, self-reliant, honest, honorable, ambitious, persevering, and not easily discouraged. Loves liberty, freedom, outdoor sports and nature. Dislikes masters and will not be driven; is blunt, impetuous, impulsive, jumps to conclusions; seldom becomes flurried under great excitement. He has good executive power and prompt decision, ability to command where it is necessary to think quickly; likes to do good and can generally be depended upon; seldom mistaken when he follows his own inspirations; dislikes secretive-ness; likes travel. Has good mechanical ability and is a "Jack-of-all-trades." Often meets with family troubles and misfortune in business. His good fortune comes mostly through his opposite sex, also most of his troubles; he is seldom without money. His generosity and what he does for others is often paid with ingratitude. When there is no special need for activity, he often seems dull, uninteresting and even indolent. In old age, he reflects on the mistakes of youth.

The woman born in this sign is fond of domestic and social life, an orderly housekeeper, economical, but not penurious, always busy; does not meddle in the affairs of others. She is quick-tempered, never bears malice, seldom forgets an injury; always does one thing at a time and puts her whole strength into it. She is often too quick and decisive, sometimes misunderstood. She has but few children, is very loving and devoted in the home life and expects similar consideration from her husband. She hates anything underhanded, rarely makes mistakes when she follows her own inspirations and should not rely on advice of others. When deceived or ill-treated it is apt to embitter her future happiness.

As the lot of those born under this sign is to be misunderstood, it is best for them to have very few confidential friends; to think well and in silence before deciding on any important matter. They should be very careful in marrying, as serious troubles are apt to occur from uncongenial unions.

Congenial associates are found in Aries, Leo, Libra and sometimes Scorpio born. The most fitting martial companion will be found in Leo or Aquarius and sometimes Libra.

Gems, Carbuncle, Turquoise, and the colors red, green, gold.

ATLAS COMPOUND

ATLAS COMPOUND is a combination of standard digestive and intestinal remedies suitable for every form of indigestion, from the simple attack caused by some indiscretion in eating to the more advanced, severe and chronic cases of long standing which seem to yield promptly to this great corrective—ATLAS COMPOUND.

THE HUMAN MOTIVE POWER

Food supplies the necessary elements which are required by the vital forces in building, maintaining and repairing the body.

The brain system is the motor that supplies the power, force and energy for operating the various organs. The Nerves are the belts that run to the different organs over which the electric current passes from the brain to operate them at will. The brain, and nervous system receives its energy or power while we rest and sleep.

Food furnishes the replacement material required and provides the energy expended in work which maintains the high efficiency of the body.

No two persons are exactly alike. This is not because physical makeup is not the same, but their mental attitude, nervous condition, and environment is different.

Much of the nervousness in people is due to poor digestion and constipation, or stomach and intestinal discomfort, while pimples, boils and various blood disorders, are due to improper elimination of the waste products of digestion. These conditions may be promptly corrected through the use of Dr. MacDonalds Atlas Compound and our special AC-SO Tablets.

C. O. The Famous Safe Heart Remedy. If you have Heart trouble, don't experiment, or neglect your trouble. Take this safe heart medicine at once. Its influence is very marked and satisfactory, giving excellent results. Price \$1.00 a Bottle.

GENERAL BUSINESS AND AGRICULTURAL GUIDE

One of the most important uses, and one which may be applied with little study by everyone is, the observance of the Moon's position by sign and its phases for daily use by referring to the page headed "Positions of the Moon" and the Calendar pages in this Almanac, as there seems to be a marvelous correspondence between the heavenly indications and the mundane effects of them.

Do not plant when the Moon is in the signs Aries, Leo or Virgo.

The watery signs Cancer, Scorpio and Pisces are best and fruitful.

Cancer is the very best sign for nearly everything grown. It is the sign governed by the Moon and rejoices therein. Its great effect is to reproduce.

The next best sign is Scorpio. It produces quick germination, rapid growth and an abundant fruitage. Pisces is next in order of quantity. It endures drought next to Cancer, being an abundant producer.

If a move or other venture is desired to prove permanent, start it when the Moon is in Taurus, Leo or Aquarius, preferably in Taurus.

A removal made when the Moon is in the sign Scorpio is very apt to turn out unsatisfactory.

Do not perform surgical operations on the body when the Moon is in the sign ruling that part of the body.

Mental work should be started while the Moon is in an airy sign; aggressive enterprises while the Moon is in a fiery sign and matter of fact business while the Moon is in an earthy sign.

Everything that is to grow in the light of public recognition, or grain and vegetables that are to grow and mature above the ground, should be started when the Moon is increasing in light.

Things that produce their yield under the ground should be planted just after the full Moon occurs and when it is beginning to decrease.

The last quarter of the Moon is not good for any planting as the Moon is then in its barren phase and only favors cultivation for destroying weeds, especially while it is in the barren signs Gemini, Leo or Virgo.

Timber cut while the Moon is increasing in light will rot quicker than if cut in the old of the Moon. Timber cut in the old of the Moon will season better, will not warp or decay and will last much longer.

Fence posts should be set and foundations laid during the old of the Moon. Believe it or not, but try it and be convinced.

SUCCESS IN FARMING

In productive and successful farming there are things of importance that need to be done to the soil to make field operations more effective. Rotation and fertilization enter in and each person must size up the situation on his own field and do the right thing at the right time. In practice one finds numerous combinations leading up to the proper fitting of the soil for the seed. The farmer who is ahead with his work is generally in the best position to do the right thing. He is usually the man who gets the high yields other things being equal.

Farming is a business and success will depend very greatly upon the farmer's ability to organize and manage the farm. Crop management is a fundamental of the farm management and crop rotation is the basis of crop management. Therefore, the practical success is very largely dependent upon the kind of farming engaged in, the crops grown and the rotation followed, while the economic phase of farming has led to the development of agricultural districts known for their production of certain crops.

The most successful person is apt to be the one who centers his or her attention on what he or she likes best and takes the most interest in producing the crops and live stock they like best to grow and raise, according to their personal preferences.

Mrs. M. Angove, New York City, writes Aug. 18/25. "Atlas Compound keeps me so good, no more indigestion. I am fine."

IF YOU WANT TO GET THIN

Stop eating the things you like, also bread of all kinds and butter. Eat plenty of acid fruits—grapes are good. Drink sparingly—leave out milk, candy and alcoholic stimulents. Walk and work every day.

A child born to a very fat woman is seldom healthy in after life. Such children start their existence with a superfluity of the elements which make flesh instead of those which make blood and bones.

WHAT TO DO IN CASE OF ACCIDENT

IN ANY CASE SEND FOR A PHYSICIAN

WOUNDS

Lay the patient in a comfortable position and stop bleeding, then cover the wound as quickly as possible. This will prevent contact with the clothing and other substances and the entrance of contamination into the wound. It must be remembered that all materials used to cover the wound should be absolutely clean. It is a safer rule to bind up the wound for the time being dirt and all, than to touch it with unclean hands. Dirt, bits of glass or cloth, splinters of wood, fish hooks, or thorns should be picked out with tweezers or pinchers. Grease, soot and dirt from machinery may be wiped out with benzine or turpentine applied on clean gauze. Do not mop a wound. Do not apply adhesive plaster except over small wounds. Wounds are best drawn together by a clean ribbon bandage and over this a cover. Fish hooks should be pushed through, not drawn back. In slight bruises, apply hot or cold water, using clean gauze or absorbent cotton. Rest is essential to the healing of wounds.

To Arrest Bleeding of the Arteries of the Foot or Leg—A stick or knotted cloth placed in the hollow just behind the knee and the leg doubled back until it presses hard against it. Then the thigh is to be doubled back upon the abdomen.

To Arrest Bleeding from the Arteries in the Fore Arm—Two sticks may be tied with handkerchiefs or bandages to form compression upon the artery until the bleeding stops.

POISONED WOUNDS

Snake Bite—Tear open clothing and expose wound quickly. Bandage wound tightly to partly stop circulation. Open the holes made by the snake's fangs with a sharp knife. Cut outwards and lengthwise of the wound. Let blood run from cut. Sucking the wound answers the same purpose, but less effectively. Wash wound with spirits, keep pressure applied and get patient to a surgeon as soon as possible.

Bites of Dogs and Cats—First wash with antiseptic soap and apply Hartshorn. If animal has been sick, suck wound after cleaning.

Stings of Centipedes, Tarantulas, etc.—Apply Hartshorn or table salt. If wound is painful consult a surgeon.

WHAT TO DO IN CASES OF POISONING

Allow free access of air. Bathe hands and face with cold water. When conscious give warm water. If he is inclined to sleep, he must be kept awake. If he is FAINT, he must be made to lie down and take stimulants. If the extremities are cold, heat must be applied.

After the stomach is emptied, BLAND DRINKS such as starch or gruel fine (oatmeal, 1 ounce, mixed and boiled with a tumblerful of water) should be given. It is always safe, and often beneficial to give Powdered Charcoal and Calcined Magnesia, either stirred into a tumblerful of luke warm water. Repeat the dose in 10 or 15 minutes if the first dose fails to act.

GENERAL INSTRUCTIONS—When a person is poisoned, life often depends on doing the right thing and doing it quickly.

When the poison is unknown, the treatment must be conducted on generally principles. If the patient VOMITS, the action should be promoted by copious draughts of tea or coffee.

EMETICS—As a rule a person who has taken poison should be made to vomit as quickly as possible. Give either a tablespoonful of Mustard, or of Common Table Salt,

Tickling the throat with the finger or a feather is a rapid and effectual way of producing vomiting. Drinking warm water (not hot) always favors the action.

When sending for the Doctor, write out your message describing the accident, injury or illness clearly, to let him know what remedies to bring.

Unconsciousness—Lay patient flat, head slightly raised. Apply cold water to head. Keep body warm. Apply hot water bottles to soles of feet. Give no stimulants.

Concussion or Stunning—Proceed as in fainting.

Hysteria—Do not restrain patient, nor sympathize with him in any way. In many cases the patient will recover best if left entirely alone.

SUFFOCATION

Suffocation from Poisonous Gases—Remove patient to open air, or open all windows. Dash cold water on face and chest.

Apply hot water bottles to body and put mustard plasters to heart, soles of feet and wrists.

Foreign Bodies in the Ear—For immediate relief put a few drops of warm oil into the ear.

Foreign Bodies in the Throat—Make patient cough by slapping him on the back. Bend him forward, face downward.

DROWNING

How to Grasp a Drowning Person—Swim up cautiously, do not let him seize you. Grasp him by the hair. Swim on your back, resting his head on your chest, and tow him along.

Clearing the Throat—Clear the air passages of water. To do this, lay patient face downward, over a barrel or log, or else clasp your hands under his belly and raise him.

ARTIFICIAL RESPIRATION

Artificial Respiration—Remove coat and shirt. Turn patient on his back with coat rolled up under shoulders. Let head drop backward.

Pull out his tongue, and keep it out by tying it to lower jaw. This may be done with a handkerchief crossed under chin and tied back of neck; or else thrust a long pin through tongue, being sure it is long enough to rest against the teeth and keep the tongue out.

Kneel at his head, grasp his arms just below his elbows, draw his arms outward, then upward to sides of head. This expands his chest. Bring his arms down along his sides in front of chest, and press inward on chest firmly. This drives air out of lungs.

Alternate these movements slowly about fifteen times per minute. Continue for at least one hour. Apply ammonia or smelling salts to the nostrils at intervals.

Do not be easily discouraged. Life has sometimes been restored after several hours work.

When breathing is restored. Wrap in blankets.

Rub whole body briskly, rubbing toward the heart.

Give stimulants, though very cautiously.

Give warm fluid nourishment.

BROKEN BONES AND FRACTURES

Make patient comfortable; put limb into splints before attempting to move the patient. Simple fractures are where the bone is broken but does not protrude. Compound fractures are those where the bone sticks out through the flesh.

Always hold the fractured limb delicately and remove clothing from the injured part. Lay the injured limb on splints well cushioned and bandage firmly. Then carry patient to a physician on a stretcher, not in the arms. Splints can be made of any handy material and should be longer than the injured limb and well padded.

Fracture of Upper Arm—No splints are required. Tie arms to side when bandaged.

Fracture of the Lower Arm—Tie arm in splints and place in a sling.

Fractures of Ribs—Lay person on the uninjured side or back with head and chest elevated. Wrap around chest several times with cotton bandages. If surgeon cannot be reached wrap whole chest in adhesive plaster.

SPRAINS

Ankle Sprains—Place folded towel or cloth around part and cover with bandage. Keep wet with hot water.

Foot Sprains—Emerse foot in hot water as hot as can be borne. In both ankle and foot sprains, elevate the foot.

Wrist Sprains—Apply padded splints and put arm in a sling.

The most important thing is absolute rest. Handle sprain as little as possible.

MISCELLANEOUS

Sunstroke—Remove to shady place. Lay patient down, head level with body, and loosen tight clothing. Pour cold water over head and face. Rub body with pieces of ice.

Crushed Fingers or Toes—Mold into natural shape with light touch. Do not handle them with your fingers. Cover your fingers with gauze or clean cloth.

Slight Burns—Apply common baking soda, one tablespoonful to one-half glass of water. Cover with clean gauze or cloth and exclude air.

Severe Burns—Remove clothing by cutting away. If clothing sticks around burned part, wet with water or oil. Exclude air by covering the surface. Never hold a burn to heat. Remove patient to a cool place, apply sweet oil, olive or carron oil, vaseline, or the white of an egg. If no oils are at hand dust burned part with starch or flour, or use moistened earth or clay.

If Clothing Catches Fire—Throw person down, wrap in rug or shawl, roll on floor until flames are extinguished.

Sunburns—Cover with baking soda, vaseline or oil. Bind with cloth.

Frost-Bite—Rub frozen parts with snow, ice or put into cold baths. Afterwards rub with cloth wet with warm water.

Foreign Bodies in the Eye—Do not rub the eye or use handkerchief. Try to remove with piece of clean gauze. If not possible to wipe out the substance, blow the nostril on the same side which is often effective. Whether the substance is gotten out or not, it is well to drop into the eye a few drops of castor or sweet oil.

Foreign Bodies in the Nose—Blow the nose hard holding opposite nostril. Excite sneezing. Have the patient take a full breath then give a sharp blow on the back between the shoulders.

MODERN POULTRY RAISING

To all who are concerned or interested in the greater development and prosperity of the poultry industry, the following information may prove of useful and practical service as it is a direct beneficial help to all poultry raisers. The making of a living from raising poultry depends in a very great measure upon the individual.

Close attention to details, untiring efforts for the welfare of the flock, a receptive mind to profit by the experience of others with careful business calculations and enjoyment in the work connected with poultry raising, as well as many other considerations have to do with the individuality of the person who wants to engage in the business for practical success, as poultry raising is an exacting work, full of details and conditions to be met.

To bring through with reasonable success a bunch of baby chicks to their fourth week it is necessary to make the brooder house without draft, to place in it a good source of heat and to follow simple instructions on care and feeding.

As the chicks grow, the brooder house becomes too small for the number of chicks that have been placed in it, and if a part of them are not removed, many ills will follow as a result of crowded conditions. Give the chicks plenty of room and good ventilation. As they get older give them plenty of range with green growing food stuff so as to avoid loss, stunted growth and other undesirable conditions. They will not thrive in crowded quarters and improperly ventilated places. Where they are in the sunshine, they should always have easy access to shade.

In feeding flocks of baby chicks dried buttermilk starting mash is very helpful. It may be fed during the first week by scattering it lightly about five times daily at the edge of the hoover on clean paper or soft boards that can be washed daily. They should be kept acting hungry and given only about what they will clean up in fifteen minutes. They should not be over-fed, or too much feed thrown down for them to tramp on.

After the first week it is best to then place the mash in hoppers so that they may have access to it all times. Fine chick scratch grain should be scattered in the litter three times daily in order to make them scratch and which causes them to take proper exercise favoring growth and vigor. Water with the chill taken off should be accessible to the chicks at all times. Teach them to roost as they get older and as early as possible.

Breeding cockerels should be separated from the pullets and all other cockerels removed two months before the hatching period, as this favors the growth and vigor of the pullets and gives them more room especially where confined.

Cockerels for breeding purposes should be selected with much care because they are the foundation for future flock. Rapid development, general appearance, action and vitality should always be taken into consideration as to choice and for best results. They should be kept away from others and preferably on green range with plenty of sunlight where they will make rapid growth and development into hardy and vigorous males for utility purposes as well as fine specimens.

When a new mating is desired, the male bird should be placed with the hens for a period of three weeks before the eggs are used for setting in order to be sure they are free from the influence of any previous matings. When the male bird is placed with pullets or hens that have not been mated, or have not been with the male bird, the eggs are usually fertile for breeding purposes in about a week, although it is best to wait for ten days in order to have a greater proportion of fertile eggs.

When pullets are first beginning to lay, blood spots may appear on the eggs; this may also be the case during the period of heavy egg production in the spring and at the time when the layers are forced with concentrated mash, but a balanced ration with plenty of green feed and exercise, especially free range will prevent the occurrence, although occasional eggs may show clots on them, even under the most favorable conditions and management.

Laying hens should be properly fed and cared for in order to have them retain their flesh and high egg production. Many flocks of good producing hens have been ruined for the summer egg production by feeding them with the same stimulating ration during the spring months they have been fed on during the winter months. This sort of forcing combination of feed with changeable spring weather has a bad effect resulting in an all run-down condition of the laying hens and has a tendency to throw into a moult at the beginning of the summer season.

Feeding is a very important thing in keeping poultry whether for profit or home use. In order to maintain egg production during the summer season, it is advisable to continue the feeding of dry mash also meat scrap or tankage, even when the hens are on range as this gives them a variety. They may not eat as much of it during the spring and summer because of what wholesome food they will pick up on free range, but it should always be placed where they can get it for profitable egg production during the summer period.

Direct sunlight of outdoors is an effective preventative of leg weakness. Chickens also need sunlight to prevent ricketts. Neatness and appearance in eggs always commands buyers. First choice is always given to the best.

Oats soaked over night are more desired by hens and are much better for them than dry oats, as the water swells the oats and softens the hulls, which makes them more easily digested and relished. If a flock of hens under average care produces from 140 to 160 eggs per bird per year, they may be considered hens of fairly satisfactory quality.

The Pekin Duck is considered one of the best for market purposes, but the Cayuga Duck is purely American, having black plumage, grows to good size and carries a large quantity of meat. The Pekin lays a light colored egg, while the Cayuga lays a very dark colored egg, shading to black, or very dark green. This is more especially so at the early part of the laying season.

Turkeys for stock breeding should be changed about every three years, as by doing so better results will be obtained. Nature seems to protest against inbreeding by giving warning with club-footed and weak or invigorous specimens of offspring.

GROWING STRAWBERRIES

To grow strawberries successfully does not require a very large plot if handled correctly to produce an enormous yield. Land which has grown good corn will generally grow strawberries abundantly, but it should not be too high or too low ground. Where it is practical the piece of ground selected for strawberry raising should be given a generous spreading of stable and poultry manure and should be plowed in the fall. A well drained slope facing the south is an excellent position for the strawberry bed.

The soil should be thoroughly worked and allowed to settle for a few days before the setting of plants in the spring time. The plants should be alive and well rooted. If the roots are brittle and brown in color, the plants should not be used. It is best before setting to clip the fine ends off the roots, leaving them about three inches long. Care should be used in not allowing them to become exposed to sun and wind while setting. Keep the plants wet while setting them. Much of the success or failure of the strawberry bed can be laid to the care with which the plants are set.

Strawberry plants should be set in rows three feet apart and from 2 to 3 feet apart in the rows. If a generous hole is made for each plant and fine manure poured in it before setting the plant better results will be obtained. Cover the manure with a fine layer of soil, then spread out the roots and set the plant, pack a thin layer of dirt down over them and water. After the water soaks in well, draw fine soil in and around till the hole is level or a little above. Leave the last layer of dirt loose without packing and be sure to leave the crown of the plant uncovered.

Weeds must be kept out and the soil kept thoroughly open or loose, but the roots must not be molested. If the plants show a tendency to bloom the first season, all but one or two blossoms on each plant should be pinched off; by doing this it will cause the strength to be thrown into the development of the plant favoring its fruiting. Plants that have bloomed, should not be set. The plants should be thinned out where they have formed too thick a sod and weeds should be kept out all through the season.

Spring setting will give the best success with strawberries as it is at this time nature favors growth and development. Plants one year old are preferable, as the roots are undeveloped and more apt to live and thrive. Make the setting in the springtime early, take good care of the plants and fill in any vacancy where plants have died with new plants formed by the runners. Water after the sun has gone down and stir the soil gently the following morning.

There is one advantage to setting plants in the fall. If they do well they will bear the following season, but great care is necessary if the setting is done at this time as the dry season is rather unfavorable for them. Plenty of water should be used if set in the fall and frequent watering evenings thereafter to keep the roots alive.

All undesirable plants should be culled out. By closely studying the foliage of the plants these undesirables may be easily discovered as they are different in size, shape or color from the parent plant, as they will breed back to the varieties from which they were formed by crossing. This is said to be especially true of the Everbearers.

To have a perpetual bed after it has once been established care and attention is necessary. After the fruit is harvested, plow or spade up rows one foot wide. Allow this space to set itself from runners which will form the next season's new vines. Then spade out the old row the following season, allowing that to be the new row for the coming year. By doing this it will not necessitate the setting out of new plants every few seasons.

When the ground first freezes spread over the vines several inch layers of leaves, straw or hay as a protection from severe cold and to prevent alternate freezing and thawing in the springtime, as well as to retain moisture. This mulching will enter into the composition of the soil, greatly benefitting it and favoring the bed.

Care should be taken to have the covering stirred and loosely separated in order to give the vines space to creep through early in the spring. If the mulching is allowed to pack closely it will result in smothering of the plants.

DR. MAC DONALD'S ATLAS COMPOUND

From generation to generation the name and wonderful medicine Dr. Mac Donald's ATLAS COMPOUND and Mac Donald's Farmers' Almanac has been handed down.

The steady dependable service year in and year out on which the reputation of this Almanac and Atlas Compound are built and maintained is what has cemented the ties of friendship among our many thousands of regular customers to these two most excellent things and is also what steadily increases our business, as good faith is always the fundamental consideration behind it.

Every original letter from which extracts of testimonials are quoted are on our files and these letters are, we fully believe from conscientious people who have written them in the very best of faith. Out of the abundance of letters like these we can only print testimonial extracts from a few. They come to us voluntarily and we give the brief information to the public in order that it may be known what ATLAS COMPOUND has accomplished, we make no claim to the supernatural. Atlas Compound does its work and the people laud its merits.

F. A. Palmer, Chicago Height,, Iil. writes Aug. 10-25, "My wife took One box of your Atlas Compound. She had been complaining for the last two years with bad taste in the mouth, dizziness and everything that goes with Liver complaint. She now feels like a new woman."

Mrs. S. J. Youmans, Bay City, Wis. writes Aug. 10-25, "I want to tell you how much good Atlas Compound has done for me. I suffered so with pain in my stomach after eating I was really afraid to eat for pains. Since taking your Atlas Compound I feel so much better. I can eat most anything now and have no pain."

When Corn Should Be Cut For Silo

Some farmers cut corn for the silo while it is still in the silk or milk stage and growth, and in so doing, lose about one-third of the feeding value in substance.

Corn should be allowed to mature and be cut at the glazed stage as it is then in best condition for silo purpose. It is even better to take chances on Frost than to cut stalks while they are still green and growing, in order to obtain the best food values, especially early in the season, as the most milk is secured from well matured corn silage, containing plenty of corn on the cob.

When corn is put into the silo before it begins to glaze, there is sure to be a loss of a good portion of the feeding value, which would be gained by allowing the corn to stand until sufficiently matured.

When silage corn is out just as the majority of ears begin to glaze, the farmer not only obtains the greatest amount of digestable nutrients per acre, but he also has less tons of corn to handle, because the corn contains much less water and more total dry matter.

Analysis show that there is a continual increase in both total yield and in food nutrients as the corn plant matures. The highest total yield is obtained in ripe corn. However, since ripe corn is too dry to pack well in the silo, its keeping qualities are impaired due to its susceptibility to mold. There must be sufficient moisture for the corn to pack well and exclude all air pockets. For that reason it is advisable to cut corn at the glazed stage.

Except in case of frost, it is a mistake to cut corn for the silo before the glazed stage, because of a great deal of the food value being lost, and sour silage is apt to result from green corn. Corn when cut very green contains so much moisture that the proper chemical changes cannot take place and though it usually keeps very well, the result is sour silage. A study of the analysis shows that from the milk stage to the glazed stage there is an increase of 34 per cent in total protein, 32 per cent in carbonhydrates and 13 per cent in fat.

That putting immature corn in the silo means great loss to the farmer in feeding value is the logical conclusion to be reached in the matter.

The silo is a great labor saving device. It doubles the value of corn as a feed, triples the stock carrying capacity of the farm, and returns back to the soil added fertility of great value and importance in land production.

Corn freshly cut and placed in the silo generates considerable carbonic acid gas. Though not poisonous, is suffocating, and for this reason care should be exercised in entering a silo where the doors have been inserted up to a point several feet above the silage surface.

Silage keeps young stock thrifty and growing through the winter. It also produces fat beef more cheaply than does dry feed and enables cows to produce milk and butter more economically.

The silo enables a larger number of animals to be maintained on a given number of acres. Build the silo on well drained ground so that the water does not run into the silage.

The Sun is the indicator of the fruitful periods and growing season. The Moon indicates according to its phases and when in the right signs, the best days for all planting, as the Moon's location in each sign of the zodiac has an important influence on all manner of vegetation.

By doing your gardening so as to co-operate in harmoy with nature, greater production and finer quality will result in all that you raise.

TABLES OF PLANETARY HOURS FOR DAILY USE AND THEIR MEANING

By using the fortunate hours for general activity and matters of importance this information may be found helpful.

Every planet rules certain departments of life and each hour of any day after sunrise is ruled over by one of the planets, and this hour will be generally good or adverse according to the nature of the planet and the description of matters or things ruled by it. In choosing the time to begin enterprises or events of importance, business and travel it is well to do so in a good hour, as planetary hours are used by Astrologers and others with good effect and have been recognized for ages.

If you are deciding on doing anything connected with important matters or occupation ruled by the particular planet of any day or have business or experience coming under the general description of a certain planet, first determine which planet it would come under, then take the day that planet rules the first hour after sunrise and choose an hour ruled by the planet for your purpose as this will double the advantage in your favor.

Study the description of the different planets so that you may first know the one which your special business comes under. If you have a paper or contract to make and sign, this would come under Mercury, the planet ruling Wednesday, as this would prove more favorable than a Mercury hour on some other day. If sun rises at 6:16 A. M. on Wednesday, the 1st, 8th, 15th and 24th hours after sunrise would be the good planetary hours of Mercury.

Mars rules Tuesday. If you wanted to do something that came under the description of this planet and the sun rises at 6:10 A. M. the first good hours would be from 6:10 to 7:10, the second good hour from the 8th hour after sunrise to the 9th, or an hour.

If your ruling planet is Jupiter—and the description of the business matter you wish to consummate comes under Jupiter which rules Thursday, it would be especially favorable to you in these good Jupiter hours of this day.

No one is absolutely ruled by any planet or sign, but some people respond to the influence of different ones. Very few people govern themselves and are greatly influenced by conditions, each in proportion to the amount of their knowledge and the use they make of it, or the lack of it.

Sun—Planet of light rules Sunday. Good hours ruled by it after sunrise on each day of any week.

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
1st	5th	2nd	6th	3rd	7th	4th
8th	12th	9th	13th	10th	14th	11th
15th	19th	16th	20th	17th	21st	18th
22nd		23rd		24th		

Description—In the good hours of this planet ask favors and make applications for employment of those in good position and authority, also of those in political and government office, and try for promotion. State your request or proposition to them plainly and earnestly. Good to ask favors of managers, employers and influential people. Send out advance notices and make public announcements. Seek that which is lost, give presents, think of others. A critical hour for those taken ill. This is not a good hour for other matters.

Moon rules Monday. Good hours ruled by it after sunrise on each day of any week.

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
4th	1st	5th	2nd	6th	3rd	7th
11th	8th	12th	9th	13th	10th	14th
18th	15th	19th	16th	20th	17th	21st
	22nd		23rd	27th	24th	

Description of Planet Moon. Favorable for affairs connected with groceries, drinks, fresh water fish, kitchen utensils, washing, nursing, journeys by water, gain by females. Increase of trade and domestic matters, canning vegetables and juicy fruits, making cider, vinegar and silo corn. Deal with common people, new acquaintances, female officials, nurses, sailors, public salesman, and things of a liquid nature. Not counted a good hour to lend money, buy cattle or begin any building.

The first hour after sunrise on Monday is counted a double advantage to begin work or attend to matters described under the good aspects of this planet—Moon.

Mars rules Tuesday—Hours ruled by it after sunrise on each day of any week.

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
7th	4th	1st	5th	2nd	6th	3rd
14th	11th	8th	12th	9th	13th	10th
21st	18th	15th	19th	16th	20th	17th
		22nd		23rd		24th

This hour rules courage, energy, ambition, and all work requiring pluck, perseverance, and endurance. This planet rules surgeons, dentists, machinists, soldiers, military men, engineers, carpenters and mechanical affairs generally. Good hours to study, investigate, attend to business connected with medicine, pharmacy, construction and to deal with animals, transportation, conduct business matters associated with structural iron workers, sewer builders, scavengers, lumberman, hardware dealers, stock raisers, barbers, agents, police, and to solicit and canvass. In this hour there is tendency to accidents, cuts, bruises, fires and inflammatory conditions and quarrels. Be careful, Safety First often saves suffering and expense. Not considered good for surgical operations.

Mercury rules Wednesday. Planet of intelligence and mental activity. Hours ruled by it after sunrise on each day of any week.

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
3rd	7th	4th	1st	5th	2nd	6th
10th	14th	11th	8th	12th	9th	13th
17th	21st	18th	15th	19th	16th	20th
24th			22nd		23rd	

Description of Planet Mercury. This hour rules friends, accounts, writing, interviews, correspondence, travel and study. Good for all mental work and matters connected with contracts, advertising, public matters, books, studies, speeches, lectures and education. Deal in merchandise, trade, buy or sell, send messages, begin journeys, lend or borrow money, ask favors from wealthy or prominent persons, begin building, plant or graft, deal with business men, commission merchants, distributors, newspapers, editors, reporters, printers, book and stationery concerns, teachers, students, lawyers, bookkeepers, architects, scientists, and young people. Good for dealing with neighbors, drawing up contracts and business generally. Not good to contract marriage in this hour.

Jupiter—the great benefic rules Thursday. Good hours ruled by it after sunrise on each day of the week.

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
6th	3rd	7th	4th	1st	5th	2nd
13th	10th	14th	11th	8th	12th	9th
20th	17th	21st	18th	15th	19th	16th
	24th			22nd		23rd

Description of Planet Jupiter. Good to deal with bankers, brokers, lawyers, clergymen, clothiers, merchants or provision dealers, commercial men and physicians, buy and invest, speculate, ask favors, begin new undertakings, journeys, lend or borrow money, buy cattle, propose marriage and see the way out of difficulties. If taken ill in this hour the blood or liver is apt to be affected, but the recovery will be quick. Good to sow all kinds of seeds and plant.

Good to leave home on any errand and have it end with success, especially during increase of moon as this hour gives usually good and correct judgment. Use this hour if in need of credit or in difficulty and within reason, but don't expect impossibilities.

Venus rules Friday—Hours ruled by Venus after sunrise any day in each week. Time of sunrise to be taken from this Almanac.

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
2nd	6th	3rd	7th	4th	1st	5th
9th	13th	10th	14th	11th	8th	12th
16th	20th	17th	21st	18th	15th	19th
23rd		24th			22nd	

Venus the Goddess of Love. Venus hours rule love affairs, courtship, and social matters, art, music, flowers, pleasure and all dealings with opposite sex. These hours are especially good when Moon is new to buy jewelry, ornaments, or clothing and are also good for any business connected with women, courtship, proposals, marriage or pleasure, refined entertainment, social and general prosperity and popularity. Good to cultivate new friendships, seek the favor of ladies, deal with confectioners, hotel keepers, housekeepers, restaurant managers, milliners, dressmakers, clothiers, tailors, artists, singers, actors, musicians, drapers, nurses, make collections and attend to all affairs of business.

Good to take medicine. Profit and gain may be obtained through dealings with things intended to please people. Taste for delicacies, amusement and matters associated with houses, lands and the fruits of the earth. Strive to make the most of this planetary influence in all affairs such as business, social or domestic matters.

Saturn rules Saturday—The good hours ruled by it after sunrise on each day of any week:

Sun.	Mon.	Tues.	Wed.	Thurs.	Fri.	Sat.
5th	2nd	6th	3rd	7th	4th	1st
12th	9th	13th	10th	14th	11th	8th
19th	16th	20th	17th	21st	18th	15th
	23rd		24th			22nd

Description of Planet Saturn. Favorable to occupation, positions of trust, responsibility, and executive work, matters connected with property, beginning a building, mines, leasing and attending to business affairs generally, plodding, laborious work, digging in the earth, planning, organizing, buying grain. Deal with farmers, coal men, shoemakers, leather dealers, plumbers, undertakers, real estate matters and affairs of a slow, serious nature, and seek the favor of elderly people. Not a good hour to lend or borrow money or fall sick in, as it threatens disease apt to be of long duration. Good to pay bills and close up matters that have been dragging along.

COTTON GROWING

Farmers should learn to understand and take advantage of the possibility of increasing the value of their cotton by planting better varieties, which is at the present time considered as a form of protection against unnecessary losses from the boll weevil.

It is possible to develop early varieties of cotton with longer more abundant, and more uniform fiber, and to hasten the setting of crops through improved cultural methods. Earliness is important and does not interfere with the improvement of the crop as raised under boll weevil conditions.

With the varieties and improvement in cultural methods it is possible to produce long-staple cotton in districts where previously only short-staple cotton has been grown. The cost of producing long-staple varieties is not necessarily greater than short, although more care is needed in handling the crop and maintaining supplies of pure seed. Better methods of preparing and cultivating the land, means a more favorable condition for the production of superior fiber. The same precautions that are necessary to secure a paying crop in the presence of boll weevil make it possible to produce fiber of better quality,

The cotton plant grows only in warm weather and does not recover rapidly after it has been checked by cold or other unfavorable conditions that may happen during the early spring months. The production of long-staple cotton does not depend alone on planting of a different kind of seed, the matter of culture enters very largely into it. Plants must grow under favorable conditions or even the best varieties will fail to produce superior fiber. To produce fiber of normal length and strength the plants must have continuously favorable conditions.

Variations of quality ascribed to differences in the composition of the soil in reality arise from differences of cultural conditions that affect the supply of moisture available for the plants. Alternating checking and forcing of plants does much damage. If one kind of cotton, a superior variety could be grown in a community without being exposed to the two chief causes of deterioration - - crossing in the field and admixture at the gin, better results would be obtained.

Deep plowing and thorough cultivation are needed to avoid checking the plants and thus causing them to shed their buds and bolls in the earlier stages of growth, to bring the crop to full maturity and produce superior fiber as well as increase in yield.

Small upright plants, close together in the rows are considered better than large spreading plants for the purposes of production. Plants that are too large and luxuriant may fail to set any bolls or may put on a late crop of bolls which are apt to be destroyed by an early frost.

Crowding between the rows, in fields of large spreading plants, shuts out the light and interferes with the development of an early crop, which must be borne near the ground on the lower fruiting branches of the main stalk of the plant, not on branches that develop late in the season.

To secure early crops of cotton in the presence of the boll weevil or during short seasons, it is better cultural practice to have large numbers of small plants than small numbers of large ones. Vegetable branches are undesirable for production purposes as they often replace the lower fruiting branches and are more numerous on large plants. Usually they are confined to the lowest joints on the main stalk.

Single stalks avoid crowding between the rows and at the same time secures a more normal development of the lower fruiting branches, where the early bolls are produced. By keeping the young plants closer together with deferred thinning and close spacing in the rows most of the plants develop with a single stalk.

COTTON GROWING Continued.

Rows from 36 to 42 inches apart produce the largest crops from single stalk plants less than a foot apart in the rows. Where wide spreading plants are 2 or 3 feet apart, they do not produce so well.

Pure seed and one variety in every community is essential in the improvement of cotton production as well as all planting as nearly as possible at the same time will help greatly in the protection against boll weevil injury. This together with learning how to interpret the behavior of the plants in relation to soil, weather, cultivation, irrigation or other conditions that need to be understood, controlled or taken into account through the growing season, will result in much better crops.

GENERAL PREDICTIONS FOR CHILDREN BORN DURING THIS YEAR

Children born during the early hours of the morning through this year are apt to have trouble, sorrow or conditions of poverty to contend with in early life. They should be taught to keep away from bad company, encouraged to be saving and thrifty and to be influenced only by thoughts and acts that will be of benefit to them through life, with rightful consideration for all with whom they come in contact. They prosper in later life.

Children born at or near the noon hour during this year when the Sun is at the Zenith, will do well in professional lines and should be given proper training and opportunity to fit themselves for such vocations.

Children born in the middle of the afternoon during this year should be taught to carefully guard their health, to avoid bad habits and over-indulgence in order to lengthen their span of life.

Children born shortly after Sun set through this year are liable to have sickness to contend with during the various periods of their lives and should carefully guard their health and vitality.

Children born on any Saturday through this year should be taught early in life habits of thrift and economy, but not to be grasping.

The Sun rules youth. His position in the horoscope represents the will and the part of the Map from which the greatest energy is derived. Children born under this planet generally have friendships from people in a position to bestow favors and which aids them in their endeavors to advance in life. In the world at large, the Sun signifies employers and those in immediate authority of the person.

SUN IN LEO

The Sun is the planetary ruler of the sign Leo - the royal sign of the Zodiac. Children born between July 22nd and Aug. 21, are especially under this influence.

The Sun in Leo gives a masterful nature with a large measure of self control, a keen sense of honor and never failing integrity. The person aspires to rule others but would scorn to take a mean advantage or to do anything to others that would not be in strict accord with the Golden Rule. Leo rules the heart.

These children are noble, ambitious and aspiring in nature. They generally make good leaders, but poor followers. The love nature is strong and ardent; have considerable will power and usually over-come obstacles; apt to be very fixed in their opinions.

The principal thought of Leo born children is a quick temper and mis-judgement, but they do not hold spite and when shown to have been in the wrong are ready to apologize and make amends. Even to their most bitter enemies, they are inclined to show consideration. These children should avoid becoming over-heated or excited.

ASTROLOGY

How wise we are when the chance has gone and a backward glance we cast.

We know just the thing we should have done when the time to do it is past.

Astrology is the science of delineating character and judging past, present and future events from the positions of the planets and of the earth in the Zodiac, at any given time. It is the key that opens to seekers after knowledge an explanation of the mysterious and unchanging laws that govern the universe and all living things. Astrology has interested the most advanced races of mankind ever since the reflective faculties of the mind were developed, which is evidenced by recorded history and research into the manners and costumes of past ages. There is more in astrology than the mere writing and reading of horoscopes and the delineation of character and vocations, which the casual reader does not comprehend. The study of astrology will develop talents that are latent and of which persons are unconscious. It will intensify natural intuition and makes perceptible things which would otherwise have remained obscured. There should be two motives in the student taking up the study of astrology. The first is, to thoroughly understand one's own nature. The second is, to become of use to those who do not have the advantage and opportunity of obtaining this knowledge for themselves.

No one should hesitate to begin an investigation of this science, for even a superficial examination will show that there is a "way" in the apparent inequality of mankind. It will show why some persons succeed and others fail. Why some are weak and others strong. Why some persons continually quarrel, while with others there is peace, quiet and harmony. Sickly sentiment and distaste for improving the mind is inculcated by ready stupid books and vulgar novels, so, by the study of the science of astrology is the mind expanded, new and ever rising ideas and thoughts are elevated and the pleasures of life realized. If the science of astrology was sufficiently known, very many of the evils now afflicting mankind would not prevail; and much pain, sorrow, trouble and consequent disappointment now abounding would not exist. Never before in the history of the world has the struggle for existence been as fierce as at the present time. Never before has mankind been so demoralized and unsettled. Therefore it behooves every sensible, thinking man and woman to grasp every means and opportunity to better their condition by permanent efforts to rise to the higher places of thought and action.

Invisible things cannot be seen, yet invisible things, such as gas, the producing power of the sun, the vital power of plants and animals, thought, feeling, psychological influence, electricity and many other things too numerous to mention, are nevertheless facts and exist in spite of the incapacity of ordinary persons to explain them. The person who denies the existence of anything beyond his comprehension is as credulous as one who believes everything without discrimination. Both of these persons are slaves to opinion or limited in their intercourse with the world. That a practical astrologer can select these times with unerring accuracy has been proven by hundreds of years' testimony in that direction. The man who dares not follow his own judgments, but constantly takes the advice of others, becomes at last a moral weakling and an intellectual dwarf. He is in fact a mere fragment of a human being, carried about the world, an insignificant cipher. A sober, industrious person with fair abilities may fail at times by following his judgment, but such a person must eventually succeed. Know your work, then do it.

Astrology is the Science which teaches of the Effects of the Planets on Human Life and the Things of the Earth. By it we can foretell future events according to the positions of the Heavenly Bodies at the time of Birth. That it is The Oldest Science in Existence is proved by the fact that The Astrological Signs have been found in ancient Temples known to be more than ten thousand years old. Astrology today is based on sound mathematical calculation the result of thousands of years of occult study and investigation. Every person born on this Earth is ruled by some Planet and Sign of the Zodiac. As these Planets and Signs are ever changing in their aspects, no two persons can be born exactly alike, even twins born a few minutes apart will have different character, disposition and temperment. It is this influence that causes the great diversity of human life. That there are proper and improper times for the transaction of all the important affairs of life all admit, but few explain Astrology explains these matters with unfailing accuracy. Many of the brightest men of the world today are guided in all their important matters by Astrology. The believers in Astrology are Men and Women of soaring intellect, not blinded by ignorant prejudice. It ought to be the refuge of man in every station of life. All can draw comfort from its predictions when under the evils inflicted by hostile fate, or receive greater stimulus in the struggle for Fortune's favors.

Astrology is a Science and an Art. It is older than the ruins in Egypt or India. It has been abused by the ignorant and debased by superstition. Its phenomena is the exhibition of The Highest Forces of Nature. It will show a Man or Woman, Boy or Girl, what Profession, Art, Business, or Vocation in Life they are Naturally adapted for. It will elevate wayward characters and show them how to use their Talents and Rise in The World. Thousands have acknowledged it to have been their Guide to Honor, Wealth, Health, Happiness and Success.

WHAT DREAMS MAY COME

There are four kinds of dreams. The first, between sleeping and waking, or dreams proper; the second, those which one sees concerning another, or a vision; the third, those whose interpretation is shown to the dreamer, or a revelation; the fourth, those which are related to the dreamer in a nocturnal vision. There is also a kind of combination of the above called apparition.

Those who would have true dreams must have an undisturbed mind, a sound body and an intellect not made dull by late suppers or strong drink, not sad by poverty, nor excited, angry or incited by vice.

Every dream has its signification and dreams commonly go by contraries. Dreams possess an element of warning and we are more or less informed of events which afterward happen. When the body is asleep the soul is awake and transports itself everywhere, even where the body would be unable to go.

A dream is that which shows the truth hidden under certain things. A vision is simply a thought happening while the person is half asleep and half awake. A reverie occurs when the person has been thinking steadily on a subject throughout the day and dreams of it at night. An apparition is simply a vision that occurs to the individual persons. Dreams that occur while the mind is tranquil and the stomach empty are often fulfilled.

To dream of roads indicates fortune; if clear and bright, good fortune; if dark and gloomy, evil fortune and future reverses. Rings signify marriage, money and friendship. The serpent is the emblem of falsehood and enmity and denotes enemies. It should put a person on his guard, as it forewarns him of trouble, vexation and annoyance. The coffin, the emblem of death, signifies long life and happiness; also an increase of property through industry, it also portends news from friends at a distance. The dog, the emblem of fidelity, denotes friends and jealousy.

To dream of squares indicate peace and prosperity; oblong figures, domestic troubles. Straight lines indicate peace, journeys, happiness and long life. Wavy and crooked lines indicate vexations and conveyance; if crown or triangle, it denotes unexpected fortune. To dream of a cross means the death of a friend and denotes adversity, trials and sorrow. To dream of flowers is fortunate, it indicates joy, happiness, speedy riches, a prosperous marriage and a happy life. Letters indicate news; if they are clear and easily read they indicate welcome news. To dream of trees indicates good health and a fulfillment of a person's wishes. To dream of mountains indicates friends and good fortune. Clouds signify success, the brighter they are the greater the person's happiness. To dream of the sun, moon and stars denotes happiness and good fortune high honors, change in life, respectability and industry, according to their brightness.

To dream of birds is fortunate: it signifies that the person will overcome his difficulties by perseverance. To dream of animals in general (excepting the dog) denotes misfortune, loss by theft, trouble difficulties, and that the person must use the utmost watchfulness to overcome these things. To dream of children denotes trouble in a person's love affairs; and great expenses coming unexpectedly. To dream of women denotes happiness and joy in general. To dream of men indicates visitors, presents, etc. To dream of worms or creeping things, clocks, woods, or any disagreeable thing, indicates rivals in love affairs and in business matters, hypocrisy, deceit and false friends. To dream of fish signifies news from abroad, confidence of friends, travel, money, fortunate events, improvement in the person's affairs. To dream of houses or large cities indicates a favorable change in the person's fortune, and that they must be cautious and careful in their dealings. To dream of traveling denotes embarrassment and delays.

GENERAL REMARKS ABOUT ATLAS COMPOUND

OF ALL THE DISEASES that the flesh is heir to, the great majority are caused by some disordered condition of the stomach, liver or intestines. These organs have two functions to perform. The first is that of nutrition, the process by which food is digested, properly assimilated and transformed into blood, tissue and vital energy, and this constantly supplies the waste that is always taking place in the system, as the result of what is consumed in the process of existence. When this function is impaired by any one of the diseases from which the liver, stomach or intestines suffer, the nutrition of the body is impaired, the amount of waste that is constantly going on immediately exceeds the quantity of nutritive matter that is absorbed to supply it, and consequently, the loss exceeds the supply, the body is in a condition of decline, health fails, emaciation occurs, and the system is in a condition where it readily contracts contagious diseases, and being too weak to resist, is destroyed by them. The symptoms are many and varied, depending upon the disease present, and described under their appropriate headings on other pages of this Almanac. The second function is that of excreting the unhealthy matter from the blood and expelling the undigested matter from the intestines, which are the sewers of the body and when these functions are retarded a dangerous condition is the result. The impure matter is not removed from the blood, and its retention causes such diseased condition as blood poisoning, jaundice, skin eruptions, etc. When the intestines fail to expel the undigested matter its presence keeps up a constant irritation, which may lead to fatal diseases.

ATLAS COMPOUND regulates the stomach, liver and bowels; keeps them in a healthy condition, prevents chronic and dangerous diseases and restores the organs to a healthy condition when they become diseased. When traveling they should be carried along and used whenever there is an attack or a recurrence of any symptoms or disorder named in this Almanac. It is a most economical remedy. Each tablet is an accurate dose, made separately. It is quality, rather than quantity, which should be considered by the purchaser. The ordinary dose is two or three daily, taken one after each meal or at the first appearance of any symptom of an approaching illness.

AS A SPRING MEDICINE ATLAS COMPOUND has no superior. Taken twice a day after meals it renovates the system and brings about a condition of affairs vastly to be desired. It clears the complexion, and is of great value to all persons from infancy to old age..

CONVENIENCE OF THE TABLETS.—The ATLAS COMPOUND TABLETS are a most convenient form of medicine. They require no spoon or glass, no measuring. The dose is always accurate. It is readily carried in the pocket, is convenient for travelers and is always ready at a time of need. To persons of Sedentary Habits whose mode of living causes Digestive Troubles, Constipation, Biliousness or any of the many symptoms of these troubles, ATLAS COMPOUND is indispensable. It aids the digestion, promotes the appetite, stimulates the liver, keeps the bowels open and restores all the internal organs to a natural healthy condition. Does not contain acid or irritating substances, but is made up of reliable selected remedies, carefully prepared. It cannot injure the most delicate tissue of the body and can be safely taken by a delicate child. It is the safest and surest medicine for people of feeble constitutions and is sure and effective in cases of the most robust.

THE CONSTANT AND PROLONGED USE OF ATLAS COMPOUND IS NOT IN THE LEAST INJURIOUS TO THE SYSTEM.—No one need to hesitate to take it continuously or as long as conditions require it.

There are some persons who find advantage in using the Tablets regularly year in and year out. They say that they are effective, but, as in the case of soap and water for washing the hands, help to-day does not do away with a new occasion for their use, which arises day by day on account of the faulty conditions under which we live.

THE TABLET should not be dissolved on the tongue. To so dissolve it does not decrease the beneficial effect, but the more pleasant and consequently better way, is to swallow the Tablet at once without tasting. Experience proves that the size of the Tablet is exactly that which is most easily swallowed: much more easily than a smaller substance. Many persons have no difficulty in swallowing the tablet without the aid of any fluid, but those who find this difficult are recommended to place the Tablet on the tongue and take a full swallow of water. It will always be found that the Tablet has disappeared with the water. If unable for any reason to swallow a tablet, or when it is desired to give a child a part of one, there is no objection to dissolving it in water or pulverizing and taking it in the form of a solution.

Physical Troubles and Distressing Symptoms

DISORDERED STOMACH-is due to the use of improper food, over-eating, irregular hours, or over-indulgence in stimulents. The symptoms are nausea, head-ache, dizziness, coated tongue, or foul breath and constipation or diarrhoea may be present.

DISTRESS AFTER EATING-may be due to eating too large quantities, of food at a time or eating too rapidly. It also may be due to chronic stomach trouble.

DIZZINESS OR VERTIGO-may be frequently caused by some derangement of the stomach and sometimes results in fainting and unconsciousness.

INDIGESTION-is a failure of the stomach to properly handle the digestion of food and is the cause of more misery and distress than any other disease. It manifests itself in many and varied symptoms and all grades of severity from a condition where only certain articles eaten cause distress, to a condition where the simplest food may cause intense agony and is rejected by the stomach. If not relieved and corrected, may undermine the constitution and weaken both the will and nervous power. It may also cause ematiation, loss of weight, nausea, sometimes vomiting, distress after taking food, constipation, loss of appetite, dizziness and flatulence. Painful Digestion is a very distressing condition. It may come on immediately after eating the meal but often two, three or four hours after, and there may be much gastric distress.

DYSPEPSIA-is so common that it has come to be known as an American disease. It is the cause of more distressing and varied symptoms than probably any other. There is usually distress after eating, sometimes nausea, loss of appetite, headache, pain in the side, flatulence, constipation, palpitation of the heart, sometimes erroneously supposed to be heart-disease. These troubles may induce mental depression and general bad health. A miserable existence is generally a result of ordinary dyspepsia that has been neglected and where remedies have failed to correct it.

CONSTIPATION-is generally known as a failure of the intestines to perform properly their function and expel partly the undigested or refuse matter from the bowels and in sufficient quantity. In acute constipation there may be no movement of the bowels for several days and which may be followed by a period of time when there is a natural movement once daily and then return to the usual distressing symptoms. This may result in chronic constipation when the bowels only operate once in two, three or four days. Constipation usually accompanies nearly all diseases of the stomach, liver and bowels and skin affections. It may be the exciting cause of headache, colic, abdominal pain and other chronic derangements of the internal organs.

BILIOUSNESS-is caused by inaction of the liver and generally accompanied by constipation. When the bowels do not have a natural daily movement, the liver may become engorged, congested and inflamed and the bile, instead of properly excreted by the intestines is taken up by the blood. As a result of such a condition, the organs may suffer from acute inflammation and there may be a griping pain in the abdomen, headaches, and dizziness and suffering from what is known as a bilious attack. These attacks may become a frequent occurrence and finally result in a condition where the skin becomes sallow, yellowish, rough and itchy. There may be a continual headache, a constipated condition of the bowels, coated tongue, a sharp pain in the side, and a feeling that the whole system is out of order.

BLOTCHES-on the face may be caused by impurities of the blood, torpid liver and improper food and are generally present in the advanced stages where symptoms manifest themselves.

BAD TASTE IN THE MOUTH-may be due either to over-eating, dyspepsia, or some derangement of the liver. It is usually worse and is most noticed in the morning, the tongue may be coated and the breath offensive.

FOUL BREATH-is generally due to a disordered stomach, constipation or catarrh and may be frequently complicated with a coated tongue.

**WHEN YOUR SYSTEM IS OUT OF ORDER
ALWAYS THINK OF ATLAS COMPOUND.**

THE ACTION OF ATLAS COMPOUND.

ATLAS COMPOUND acts locally on the lining membranes of the stomach and intestines, loosens the mucus and slime formation and corrects fermentation, thus cleansing the walls and leaving them in an absorbative condition, promoting the secretion of nature's digestive fluids. Where there is a disturbance of the stomach and intestines of long standing, it may not be corrected in a short time, but ATLAS COMPOUND aids nature to remove the cause and correct the trouble. Several months may be required in some cases, but it is better to take small doses for a long time than larger doses. To eradicate disease, purify the blood and tone up the system is what ATLAS COMPOUND does if given time.

ATLAS COMPOUND NOT A CATHARTIC.

Take ATLAS COMPOUND three times daily with an abiding faith that it may make you well and follow the directions in a general way. ATLAS COMPOUND is not a cathartic, but if too large a dose is taken and bowels move too freely it indicates that the medicine is taking hold and removing the slime and mucous from the stomach and intestines too fast. This poisonous slime cannot be absorbed into the system without very detrimental effects and must pass off through the bowels. ATLAS COMPOUND leaves no harmful effects. It does not contain acids, potash, mercury, opiates or poison of any kind.

During normal conditions of health and regular morning habit, the poisonous substances undergo chemical changes and are finally carried off through the skin and bowels. But in many people the natural and proper elimination does not take place and this failure causes various disturbances, such as imperfect digestion in the stomach or bowels, constipation and inactivity of the liver or spleen and certain nervous disturbances which lead to the existence of Rheumatic Conditions.

ATLAS COMPOUND AS A CORRECTIVE AND ALTERATIVE.

The Blood is Life and ATLAS COMPOUND aids nature to carry off the waste material in the body and remove from the blood and system all impurities. When the slime and mucous are removed from the stomach and intestines, the food will be digested and properly assimilated, the nerves become strong and active and the physical balance restored and the vigor of health and strength what nature intended and what you desire.

Keep physically fit for work if you want to succeed. Good blood, strong nerves and elastic muscles are the secret of old age because they regulate and control every part of the body. When the life blood is polluted or poisoned with fermented matter or corruption it loses its nutritive health sustaining powers.

ATLAS COMPOUND is an excellent blood purifier, is safe, reliable and effective. It does not shock the nerves. It gently and thoroughly cleanses the blood of all impurities and stimulates the debilitated organs, acting as a corrective in all depleted conditions. It acts by increasing the appetite and the digestion becomes normal. It often acts like magic, children require very small doses mixed with fruit, sauce or scraped apple. Sick, puny children as well as elderly people become fat as the result of taking ATLAS COMPOUND.

REMEMBER THIS.

Nervousness in many people is due to poor digestion and constipation. Repose and relaxation at meals, clear conscience and avoid worry, black coffee and indulgence in delicacies and pastries are to be remembered. Be cheerful at all times and especially so during meals. There are certain disturbances of the human organs which irritate and torture men and women, which sometimes estrange them from friends in a social way and Indigestion and Dyspepsia is such an affliction. This often may cause a grouch, yet the heart may love humanity. There are many kinds of Dyspepsia but they all produce the same effect, and the greatest of all correctives is ATLAS COMPOUND.

WHAT ATLAS COMPOUND IS MADE OF.

ATLAS COMPOUND is a Wonderful Medicine. It is a Compound, in right proportions of well known drugs and herewith publish the Formula of ingredients and give the "Key" as published in the UNITED STATES DISPENSARY of each article used, as follows:—Extract IPECAC ROOT, From Brazil. It is a Diaphoretic and Expectorant. A Stimulant to the Stomach exciting the appetite and facilitating digestion. It loosens up slimy, catarrhal matter and in large doses causes nausea and vomiting. It is free from narcotic properties and is not a habit forming drug, especially fitted for use when no other effect than emptying the stomach is desired. It has been employed by the natives of Brazil for Stomach Troubles and has been known there since 1672. Until very lately it has always been employed as a Secret Remedy with great success in Stomach and Bowel troubles such as Indigestion, Dysentery, Diarrhoeas, etc. It has a general Stimulant effect upon the whole digestive tract. It is also used in Croup, Bronchitis and Diseases of the Gastro-Intestinal Mucus Membranes.

EXTRACT of GENTIAN ROOT. From the High Alps of Switzerland and other elevated regions of Europe. Gentian possesses in a high degree Tonic Powers. It excites the appetite and invigorates digestion. It has been known from the remotest antiquity. Many of the preparation handed down by the Greeks and Arabians contained it in their ingredients. It is used in all cases of Debility of the Digestive Organs where a General Tonic is required, such as Dyspepsia, Gout, Amenorrhoea, Hysteria, Scrofula, etc., and there is scarcely a Complaint (of Digestive Trouble) in which it can not be advantageously given under all circumstances.

ALOIN. Socotrine Aloes is produced in the Island of Socotra. This is the Original Aloes having been produced there as early as the time of Alexander the Great, over 300 years before Christ. It is now produced in Barbados, Bombay, Muscat and Zanzibar, Africa. In Arabia it is known as Jayef Gesheeshah, or Sacred Medicine. Aloin is the pure active principle of Aloes. Aloes was known to ancients as having a peculiar affinity for the large intestines and pelvic organs, not as a cathartic, but as a muscular exhalent, or evacuant. It Quickens the Circulation and produces a General Warmth to the system. A peculiarity of Aloes is that an increase, or over dose is not attended with a corresponding increase of effect. Its tendency to irritate the bowels and rectum is modified, or over come by combining it with an Alkali (such as Bi-Carbonate of Soda). It is an Excellent Remedy for Costiveness (Constipation) attended with Torpor of the Digestive Organs. It is supposed to stimulate the Hepatic Secretions and acts very happily in Jaundice even after Calomel has failed. It is useful in Ascarides (Round Stomach Worms) and Hemorrhoids. In Amenorrhoea (Suppression of the Menses) it is perhaps more frequently employed than any other remedy and enters into almost all preparations resorted to in that complaint.

SODA. Pure Bi-Carbonate of Soda is a cooling, mild alkali used medicinally to Neutralize the acids of the system. It is useful in Croup and to promote the Expulsion of Mucus Membranes and in Pneumonia (Catarrhal Troubles) it acts on the principle of removing the excess fibrin from the blood in inflammations.

It also lessens the sugar in the urine of Diabetic patients and modifies the action of acids in the Digestive Organs.

GINGER. This is a native plant of Hindustan and East India, also cultivated in the West Indies. The medical virtues exist in the roots. It is Agreeably Aromatic and Penetrating, Spicy and Pungent. It is a Greatful Stimulant and Carminative especially useful in Dyspepsia, Flatulent Colic and a feeble state of the alimentary canal attendant upon Atonic Gout (Rheumatism). Is it warming, Stops Fermentation in the Stomach and expells the gases.

MAC DONALD'S VEGETABLE COMPOUND

A MARVEL IN SOAP FOR TREATING SKIN DISORDERS

VEGETABLE COMPOUND is a scientific combination of antiseptic substances. It is a sure Preventative of all Skin Disorders. It is endorsed by ladies and gentlemen of refinement wherever used.

VEGETABLE COMPOUND is made from pure Coconut Oil, Extract of Soap Bark and Oil of Eucalyptus, combined with medical properties for all skin eruptions, pimples, red, rough and oily skin, dry and falling hair, itching scalp and all baby blemishes. It is the best Baby Soap made.

VEGETABLE COMPOUND contains no animal oil, no diseased fat, no rancid grease, or dangerous alkalies to poison the blood or injure the skin. It gives a rich creamy lather with an invigorating feeling and refreshing odor. No other soap ever compounded can be compared with it.

VEGETABLE COMPOUND is recommended by leading physicians and surgeons everywhere, not only as a Toilet Soap, but for bath and nursery. It is an antiseptic against contagious diseases and used to disinfect the hands and for cleaning cuts and sores.

VEGETABLE COMPOUND is recommended for pimples, blackheads, wrinkles, undue redness of face and nose, and other complexion defects. It imparts, to the skin that charming freshness and velvety smoothness so greatly desired. Its beneficial qualities to ladies and infants are marvelous, being endorsed by the leading physicians and surgeons as a soap which rapidly allays all irritations of the skin.

AS A TOILET SOAP for the Complexion, it is unequalled. It stimulates the skin and prevents secretions such as Blackheads and Pimples. It heals Chapped, Rough and Red Hands. Removes Tan, heals Sunburn and Chafing.

FOR THE BATH it has no equal. It is soothing and refreshing and leaves the skin soft and velvety. It not only cleanses the body, but it removes all eruptions and will banish Eczema, Salt Rheum, Hives, Herpes, Tetters and Ivy Poison.

FOR THE SCALP and for strengthening the hair by removing the germs that destroy it, the Compound has no equal. It is a sure preventative against parasites and microbes that effect unclean hair brushes and combs. It removes crust, scale, dandruff and scurvy. For Shampooing it cannot be surpassed.

FOR THE NURSERY it allays all itching, inflammation, rash and chafing and on account of its healing and disinfecting properties, it keeps the children's skin healthy and smooth.

AS A HEALING SALVE it will be highly efficient, by making a stiff lather and applying to Chilblanes, Burns, Corns, Ingrowing Nails and for Cleaning Cuts, Old Sores and Ulcers. It makes a delightful and lasting lather for shaving and on account of its Antiseptic properties, prevents Barbers' Itch, Ringworms and all Inflammations of the face.

IT IS A PERFECT SOAP. It will Remove all dirt, oil, stains, ink, grease, rust, mildew, etc., etc., not only from the hands and skin but from clothing, carpets and laces. It will also clean kid gloves, belts and leather goods. Removes grease from coat collars and stains from marble, bric-a-brac and paint.

THEATRICAL PEOPLE whose skin is put to the hardest usage, keep up their strength and freshness with MAC DONALD'S VEGETABLE COMPOUND, otherwise the wrinkles would come and their possessors would be "hors de combat", in other words "on the shelf," too old looking. When your livelihood depends on your looks you are pretty particular about your skin.

THE VALUE OF A GOOD TOILET SOAP in the promotion of health is too well understood to require discussion. During life, the skin, in virtue of its continually undergoing reproduction and decay, as well as being an outlet for certain excrementitious materials from the body, is constantly throwing off from its external layer, as effete and useless matter, minute scales. These, mingling with the oily secretions of the cutaneous glands and the saline and aqueous matter of the perspiration, acquire sufficient adhesiveness to form an extraneous layer upon the surface of the body, which, unless daily removed by washing and friction, chokes the channels of perspiration and the oily glands and materially interfere with the general functions of the skin.

This book enables Physicians, Healers, Clairvoyants, and Crystal Gazers to diagnose with greater accuracy. Anyone can easily use this system without any previous study. Differs from Astrology.

This is the original book on SOLAR BIOLOGY, and the only thoro system for reading character from the signs of the Zodiac and the positions of the Planets.

We know of nothing more helpful and interesting. This is the only work of its kind. The book is illustrated with diagrams, author's portrait, and tables of the moon and planets from 1820 to date.

This work tells what is in man and how derived. Tells how to cultivate self and make the most and best of life. Tells one, when a child is born, what kind of training it should have, to what diseases it is liable, how to avoid or how to cure when already developed. Reveals a part of the grand body to which each individual belongs and the consequent mental tendencies, physical fitness, natural sphere and highest and fittest use in the world.

It enables parents to know just what their children are best adapted for, and how to educate them and is also a guide in the preservation of health and strength and an important aid to success and to the attainment of the great object in life; viz., usefulness and happiness. It also aids in prolonging the life of old and young.

Bound in superior cloth embellished with symbolic designs in gold. Printed on extra heavy plate paper from very clear type. 500 pages, 6 1-2 x 9 1-4 inches in size and two inches thick. 15 th. edition. Send for prospectus, table of contents and specimen pages.

ATLAS COMPOUND

A MARVEL IN MEDICINE

ATLAS COMPOUND is recommended for diseases arising from Impure Blood such as Dyspepsia, Costiveness, Jaundice, Nausea, Loss of Appetite, Billiousness, Boils, Piles. All Gone and Tired Feeling, Sick and Nervous Headache, Dizziness, Gout, Nervousness, Constipation, Kidney Disorders, Liver Complaint and Diseases arising from Indigestion and Stomach troubles.

ATLAS COMPOUND has solved the great problem of how to keep well and how to banish disease arising from Impure Blood. It is marvelous in its results, yet it is perfectly harmless and pleasant to take, as it is a purely vegetable preparation.

THE CAUSE OF DISEASE

If the nervous system becomes debilitated by bad habits, over worked emotions, and the accumulation of waste products from an excessive amount of improper foods and drinks and a deficient body drainage, disease of one kind or another is most certain.

One of the principal causes of Senile decay or aging of the body and hardening of the arteries, is the continuous auto-in-oxication of the system through undigested food in the large intestine (the process of digestion is not completed in the stomach) and many people owe their condition to this cause.

Harmony of function and perfect health can only come when the blood is clean and drainage from the body effective and sufficient. We believe experience has abundantly proven that the remedy to keep the vital organs performing their functions properly and in complete harmony is ATLAS COMPOUND. It aids nature in acting favorably on the three great flood gates of the body-skin, bowels and kidneys, which eliminate the waste products.

ATLAS COMPOUND sells on its merits. We believe it is the Best Blood, Liver, Kidney and Stomach Medicine on Earth. It is Marvelous and Truly Wonderful. We are receiving Thousands of flattering testimonials. When you see the wonderful results, you will be convinced that it is the Greatest Medicine on the market. It sells EVERYWHERE because IT HELPS SICK PEOPLE and everybody can afford it. It is the CHEAPEST Medicine.

ATLAS COMPOUND is put up in the form of compressed sugar coated tablets. They are easy to take, easy to carry and will keep in any climate. Each Sixty Cent Box contains sufficient medicine for an ordinary case. Long standing cases which have become Chronic may require three or more boxes to get the system in normal condition.

OUR GUARANTEE

We wish to impress a FACT on the mind of those who are sick and wish to try ATLAS COMPOUND, it is this: Do not expect ONE BOX to help a disease that has perhaps, been years developing. One box will often help acute cases. One box will bring a certain amount of relief, and one box will convince anyone that it is just the medicine they need. All we ask is a trial, but after you have been failing for years and have no doubt tried various other remedies and spent hundreds of dollars for medicines, don't imagine one box will be sufficient.
